Additional (open-ended) feedback for course instructor				

\* While all GEP category outcomes do not have to be assessed or addressed in depth, the course syllabus and learning outcomes should explain how all the GEP category outcomes are being addressed in the course.

\*\* A minimum expectation is one student sample for at least two levels of achievement.

\*\*\* Note: if the course and assignments were successful and no change is planned, it is still advised to provide a brief statement explaining how the assessment results obtained led to the decision to keep the course and assignments the same.
