INFORMATIONAL SESSIONS

Informational meetings will be held for any interested UWSP employees that may be affected by impending budget reductions. There are federal, state and local programs that offer benefits and services for workers. Services are free of charge to you and can assist you in many aspects of your transition to new employment.

We will be providing information about the services available through your local WIA Dislocated Worker Program, Job Center, Community Resources and Unemployment Insurance.

Many times, workers have misconceptions about their eligibility for services. We strongly encourage you to attend this session to receive information first hand.

The meeting will last approximately two hours. You should plan to attend the entire meeting. Representatives will be available to answer individual questions.

Space is limited to 50 employees so please sign up for one of the available meetings by emailing hr@uwsp.edu.

We look forward to seeing you there!
