Follow the steps to stay on

T R A C K

Framework for Digital Accessibility ❯❯❯

T—Train

Build foundational knowledge of accessibility principles and tools.

- ❖ Complete **UWSP accessibility training**
- ❖ Review **UWSP** and **Universities of Wisconsin** policies

R—Remove

Eliminate outdated or unused course materials.

- ❖ Use TidyUP to delete unused content
- ❖ Audit your course for content that is outdated or unnecessary

A—Adjust

Revise existing materials to meet accessibility standards.

- ❖ Run UDOIT in Canvas to identify accessibility issues
- ❖ Choose your remediation path:
  - Apply what you learned in the UWSP accessibility training
  - Follow along with CITL's Canvas course - *Title II: Bite-sized Remediation Guide* for step-by-step support

C—Create

Develop new content with accessibility in mind from the start.

- ❖ Use accessible templates and tools
- ❖ Follow best practices for multimedia and documents
- ❖ Test content with accessibility checkers

K—Keep Monitoring

Continuously evaluate and improve accessibility efforts.

- ❖ Run UDOIT before the start of each term
- ❖ Stay updated on evolving standards and tools

Accessibility remediation may seem like a daunting task.

Never fear, support is here!

Your CITL team will help you stay on TRACK with digital accessibility at UWSP.
