

# Cross-Reference Chart

## KEEP Energy Education Activity

### Assessment Strategies

**Oral:** Student-generated oral work including debates, dramatizations, reports, simulations/role-playing, and speeches

**Write:** Student-generated written work including essays, reports, journals and logs, letters, worksheets, and survey results

**Prod:** Student products including models, artwork, exhibits, and portfolios

**Graph:** Graphic organizers including concept maps, collages, computer logos, and Venn diagrams

**Prob:** Problem solving process

**Behav:** Student behavior based on observation checklists, observation note cards, rubrics, taped feedback

**Self:** Self-reporting including Likert scales

**Discuss:** Discussion including open ended and guided response
