

Energy Audit Pop Quiz

Goal

- Evaluate student understanding of the school building energy audit

Strategies

- During the building audit, take a few notes to help form appropriate questions for the pop quiz.
- Sample questions might be: What kind of lighting did the school gymnasium have? What is the suggested number of foot-candles of light for a classroom? Hallway? How many boilers provide space heating for the school? What type of energy resource fuels the school?
- Prizes for the pop quiz might include energy bars, KEEP bookmarks, or light switch plates.
