Addendum: Cost Estimates

COST ESTIMATES FOR SHORELINE STABILIZATION FOR VARIOUS BIOENGINEERING TECHNIQUES.

Type	Comments	Average Cost per Lineal Foot*	Materials
Stone Revetment**	Includes geotextile fabric liner. Cost of field stone higher	\$35.00 – \$45.00	\$20.00 – \$30.00
Stone Toe with Native Vegetation	Includes stone, native seed, geotextile fabric, and Erosion Control Blanket	\$30.00 – \$35.00	\$15.00 – \$25.00
Soil Encapsulated Lift with Stone Toe	Includes native seed and construction materials	\$60.00 – \$80.00	\$40.00 – \$55.00
Coir Log with Stone Toe	Includes stakes to anchor coir log	\$55.00 – \$64.00	\$35.00 – \$45.00
Coir Log Toe with Plugs	Includes coir log and plug installation	\$38.00 – \$47.00	\$15.00 – \$25.00
Re-slope and Re-vegetate	Includes additional soil, seed and Erosion Control Blanket	\$25.00 – \$30.00	\$15.00 – \$25.00
Live Stakes	1" – 1.5" diameter	\$5.00 – \$10.00	\$0.65 – \$1.00
Wattles	10" diameter bundle	\$10.00 – \$15.00	\$10.00 – \$15.00 (10" diameter)

Structural Engineering

Biological Engineering

*Cost includes installation.

** Stone revetment alone is not considered bioengineering by the IDNR.

Note: These are 2008 figures. Actual costs may vary considerably, depending on local prices, the conditions at your lakeshore, and the level of erosion protection desired.
