

LoonWatch's *Get the Lead Out* Lake Association Kit

Available for lake associations to borrow, this kit will teach kids and adults about the issues surrounding lead tackle and offer non-lead alternatives. It contains a *Get the Lead Out!* Display, handouts on the dangers of lead tackle, a list of non-lead tackle retailers, information on the LoonWatch program, and samples of non-lead tackle for the lake association to distribute.

The only charge for these kits is the return shipping of the display!

Complete this form or call LoonWatch to reserve your kit:
