

Telephone Information

You can use the CWES building telephones to call 911, call other buildings at CWES, call local numbers for medical emergencies, and to receive calls from your own school or to call home using a calling card.

To call 911 dial “9911” to get the emergency service.

To call other buildings on site:

Pick up the phone and dial the extension of the building you want to reach. Simple as that! Don't leave a message at a building as visitors do not have access to voice mail passwords. Only the permanent staff can access voice mailboxes.
