

WE ARE HIRING

Agrisolar Education Intern

\$15/hour • 6-10 hours per week • On campus opportunity

KEEP - Wisconsin's K-12 Energy Education Program is creating agrivoltaics lessons for Wisconsin K-12 educators to use in their classrooms. Lessons will include career profiles of six professionals who integrate agriculture and energy in their work. This intern will work with KEEP staff to set up and conduct these interviews and write the career profiles.
