Schmeckle Reserve Ecological Restoration Crew Member

The primary mission of Schmeckle Reserve is to protect, manage, and restore native ecological communities of central Wisconsin. This position is part of a seasonal crew that assists with numerous ecological restoration projects in the campus natural area.

Specific Duties:

- Assist with identification and mapping of exotic invasive species populations.
- Manual removal of invasive plants and shrubs.
- Chemical treatment of invasive plants and shrubs.
- Planting of native vegetation in areas of invasive species removal.
- Educate Schmeckle visitors about ecological restoration.
- Other duties as assigned by the Ecological Restoration Crew Leader.

Requirements:

- Full-time UW-Stevens Point student
- Federal Work Study funding required for academic year positions and preferred for summer positions (for more information, see <https://www.uwsp.edu/centers/CASE/pages/employment/current/work-study-faq.aspx>)
- Willing to work outdoors in all conditions
- Able to walk long distances during shift, and lift and carry shrubs/branches with up to 3"-diameter trunks

Preferred Experience:

- Previous experience with invasive species removal and other restoration techniques is helpful, but will train

Commitment:

- 10-15 hours per week during academic year (hours are typically reduced during winter depending on snowfall and weather)
- 30-40 hours per week during summer session

Salary:

- \$12.00/hour

Application Instructions:

- Apply online at: <http://www.uwsp.edu/cnr-ap/schmeckle/Pages/about/Jobs/index.aspx>
- Positions are open until filled. Students attending the CNR summer field sessions are encouraged to apply (we will work around your schedules)
