## CNR Spotlight

Congratulations to our students Matt and Rosalind for being awarded the Outstanding Student Scholarships at the WAA/WIDNR Conference.

**Matt is an undergraduate student** studying Urban and Community Forestry. He attributes much of the joy and gratefulness he has found in life to his experiences and interactions with trees, nature, and the outdoors. Matt hopes to share this vision by helping others to become more connected to nature.

**Rosalind is a graduate student** studying Soil Science. Her thesis will investigate the relationship between site factors and white oak decline in the Chicago region. After graduation, she hopes to support the arboriculture and urban forestry fields, with a focus on the relationship between urban tree health and soil.
