- POP-UP -**

2-4pm | April 23  
TNR West Lobby (outside of 170)

**Bring a laptop!**

## PFAS Education Workshop

On April 3rd at UWSP, a workshop about Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) was co-hosted by Dr. Seyed Javad Amirfakhri. The workshop, offered in both in-person and virtual formats, aimed to provide educators with instructional tools and resources to effectively teach PFAS-related topics to students in grades 6–12. A total of 24 educators enrolled in the workshop from numerous locations across WI and MN.

**To promote engagement and active learning, the workshop included five interactive classroom-ready activities: K-W-L Activity (Know, Want to Know, and Learned Chart Activity).**

1. Exploring prior knowledge and new learning
2. PFAS Scavenger Hunt – Identifying PFAS in everyday items
3. Debate – Exploring different perspectives on PFAS regulation and responsibility
4. Case Study – Investigating a real-world PFAS contamination scenario
5. Game-Based Learning – Reinforcing key concepts through a quiz-style game

**Congrats on hosting a successful workshop!**

**Nominate a CNR Student or Faculty Member to be recognized for their work here!**

# EARTH WEEK 2025!

*Healthy Earth, Healthy Pointers!*

April 21st-27th

Scan the QR code to see all of the events taking place for Earth Week this year!
