Summer 2022 Summer Field Experience (SFE) Applications - NOW OPEN!
Applications are due February 10th by 11:45 pm

Please fill out the application if you plan to attend Summer Field Experience (SFE). Though there is a GPA requirement (2.0 in-major) please fill out regardless of your GPA as we try to make space for students whose GPA's have improved after the spring semester too.

Click here for the application!

Summer 2022 SFE TA Applications - NOW OPEN!
Applications are due February 1st by 11:45 pm

Looking for a great paid summer job? Want a resume builder for your natural resources career or graduate school? Want to work in the field with faculty? Then consider being a Course or a Plant Teaching Assistant (TA) at Treehaven or Campus SFE sessions this year! These are great opportunities if you want to work in - field opposite of your SFE session or if you need something for the whole summer. Click the links below to learn more and apply!

Course TA Application (hiring up to 18)
Plant TA Application (hiring 2)
Need to find a summer job, internship, or even a full-time career? Explore what the natural resource world has to offer at the Natural Resources and Sciences: Job and Career Exploration Fair. We are offering an in-person and virtual career fair. Please note there will be different employers for each type. More information coming soon!

Prepare for the job fair with your Peer Mentors at 11:00 am on February 14th, Location TBD

In-person:
Tuesday, February 15, 2022 from 10 a.m. to 2:30 p.m. in the DUC Laird Room

Virtual:
Wednesday, February 16, 2022 from 10:30 a.m. to 2 p.m. via Zoom in the CNR SSC Remote office.

Wednesday, February 2 at 5pm
An informational meeting will be held over Zoom in the CNR SSC Remote office! The meeting will be recorded for those who cannot make the live meeting. Visit the Summer Field Experience web page for more information!
Are you eligible to apply to the CNR?

If you are advised by Katie or Bobbi in the CNR SSC, are currently at 40 or more credits earned, and you have completed 1 semester at UWSP, then it’s time to formally apply to the CNR.

Click here to fill out the application!

Congratulations to the 2021-22 CNR Outstanding Teaching Award Recipient: Bryant Scharenbroch

“I have never found a professor to be as enthusiastic about teaching their courses as Dr. Scharenbroch is. His passion led me to understanding soil in a new way and has prompted me to work towards a soil science minor.”

“He is very enthusiastic about all things SOIL! He does a great job of getting students involved on projects and is a wonderful instructor.”

“Soil Aggregate Costume (ie. Passion and dedication). Enough Said.”

“Probably one of the best hands on learning teachers I’ve ever had. He always made sure we understood everything physically rather than expecting memorization of material.”

“He’s a great professor, has good involvement with students, and is always willing to help! He’s the type of professor who knows when to be professional and when to be casual. Having him as an advisor/professor feels like having a friend, who will help you and give you constructive advice, and not someone who thinks he’s above all. All in all, he must be awarded the outstanding teaching award due to all his contributions to the institution and student body.”

“Dr. S is an amazing soil judging coach, as he always makes sure that the UWSP team places well at competitions, learns a lot about soil, and has the most fun out of all the teams. In addition, he is incredibly dedicated to his courses, and he makes sure students understand the real world implications of what is being taught. Plus, he dressed up as a soil aggregate for world soils day.”

“UWSP's goofiest professor!”
Have something you want added to the CNR Reporter, want to submit a photo, or want to nominate someone for the Stellar Star Spotlight? Please send all CNR Reporter submissions and photos to CNR.Reporter@uwsp.edu.
