May 20, 2020

Dear graduates,

Congratulations on completing your college journey. I hope you were able to celebrate your accomplishments with the UW-Stevens Point social media graphics and fun last Saturday, May 16. I am so proud of you!

Our spring commencement ceremonies are tentatively being rescheduled to the weekend of Dec. 12, 2020. This is the weekend of our winter ceremony. Many details need to be worked out yet, including times and number of ceremonies, based on how many graduates participate. Watch for additional details via email and the commencement [webpage](#). For now, please save this December weekend as your special time to be recognized as you cross the stage.

Keeping the health of our graduates and families, our employees and communities as our top priority, we have chosen a later date. While we hoped to reschedule in late summer or fall, gatherings the size of commencement seem unlikely in a few short months. We will err on the side of safety for you and your family.

More information will be communicated as details for December are determined. The Chancellor's Leadership and Albertson Award ceremonies will occur then too.

Thank you for your understanding and your perseverance through these times. If you haven't already seen it, please watch your commencement [video](#).

With sincere congratulations,

Bernie L. Patterson
Chancellor
