## Welcome to the June 2025 Adventure Tours Newsletter!

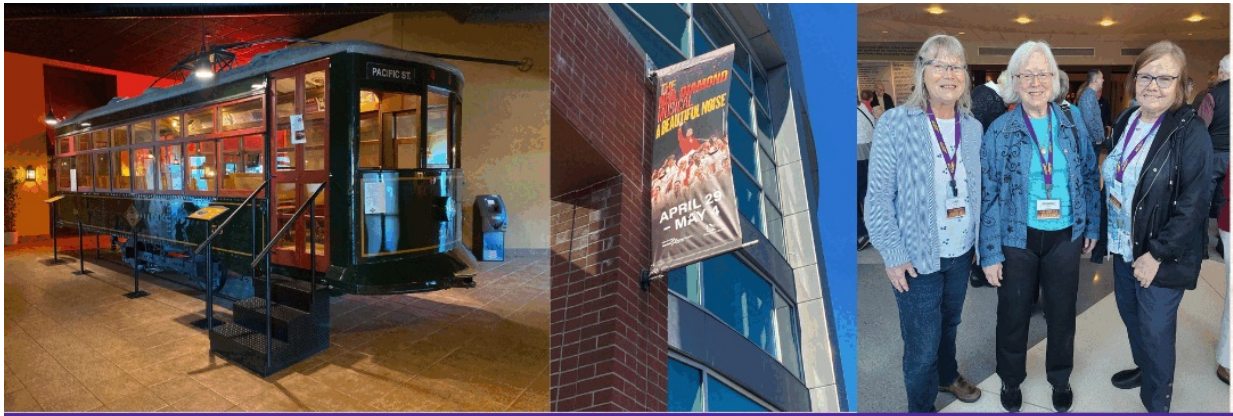

This month we were consumed by music! Our trip to see *MJ the Musical* at the Marcus Center in Milwaukee was a standout. The performance was absolutely riveting with powerful choreography, incredible music, and a behind-the-scenes story that gave us a new appreciation for Michael Jackson's genius and collaborative spirit. The meal at Saz's State House beforehand was just as memorable. Everyone was raving about the food, especially the cheddar and chive mashed potatoes which were a clear favorite!

We also had the opportunity to go see *A Beautiful Noise* at the Fox Cities Performing Arts Center, where the music and storytelling were powerful, and the energy of the performance was unforgettable. It was a true celebration of Neil Diamond's legacy. To top off the evening, we had a wonderful meal at Pullman's at Trolley Square, where the cozy atmosphere, delicious food, and wonderful dinner conversations made the experience even more special.
