WHAT IS COVEY?

A covey is a small group of birds. They stay together throughout their lives for protection and comfort. As a group, they are stronger and safer; they are able to do things they couldn't do alone.

At Covey, the participants, staff, and caregivers believe in creating possibilities, and we believe in doing it together. We are a community of passionate individuals—clients, staff, caregivers, and volunteers—working together to create possibilities for our clients and their families.

For over sixty years, we have served individuals (ages 18–64) with disabilities and their families in the Fox Valley region. Our areas of expertise include respite care, virtual and in-person skill building programs, life enrichment, and volunteerism.

OUR MISSION

Through compassion, creativity and individualized care, **Covey creates opportunities that foster personal growth** because we believe that everyone deserves an opportunity to fully participate in their community, discover their passions, and pursue their dreams.

FAMILY & CAREGIVERS

Being a caregiver of a loved one with disabilities is as challenging as it is rewarding. Respite care gives caregivers an opportunity to rest, recharge, and reconnect with themselves and other family members. Contact us today and learn how you and your family can benefit from Covey's respite care program.

Core Values

-Inclusion-

By building relationships with our community, we strive to make opportunities more equitable and accessible to our clients.

-Integrity-

We always do what is in the best interest of our clients, their families, and our staff.

-Individuality-

We see the person first. Everyone is valued, everyone is unique, and everyone deserves to feel safe to be who they are.

-Imagination-

We dream big and find creative solutions.
