Welcome To LIFE

LIFE (Learning Is ForEver) is a membership-based organization of adult learners providing an opportunity to share learning experiences and discover new joys. It is sponsored by University of Wisconsin-Stevens Point and hosted by Continuing Education and Outreach. All instructors are volunteers.

Designed to meet your needs and interests, the LIFE program provides new learning opportunities on a variety of topics in an array of formats, including:

- Peer Teaching and Learning
- Lectures by Visiting Experts
- Theater and Sports Events
- Field Trips

What Does LIFE Offer?

Since members are the heart of the LIFE program, courses are developed based on member interests. Some classes meet weekly for two weeks while others meet once. Courses and events are offered during two terms:

- Summer/Fall (July - December)
- Winter/Spring (January - June)

A LIFE membership includes one term. One bi-annual membership fee (\$50) entitles you to participate in as many courses as you wish and select discounted UWSP programming for one semester.

We hope you will enjoy the wide array of classes and activities offered this semester. LIFE's Curriculum Committee (a volunteer group of your fellow members) is always looking for fresh class ideas and new presenters.

If you are interested in leading a class or trip, please contact any of the curriculum committee members, attend a curriculum committee meeting, or better yet, join the committee! Email the curriculum committee or the LIFE Board at UWSPCELIFE@uwsp.edu.

New committee members and visitors are always welcome! Meetings will be held via Zoom at 10:30 a.m. on Mondays, August 15 and 29, September 12 and 29, October 10 and 24, and January 23.

Important Notes

Welcome to the LIFE Program for the Fall Term

We are excited by the diversity of offerings this fall. All of our classes will be available via Zoom and about half will also be open to in-person attendance. Presenters who are willing to do in-person presentations have chosen which of UWSP's three campuses to give their class. We are working hard to ensure that in-person programs are available on each campus. Your attendance is not restricted to the campus closest to where you live. LIFE is very happy to be able to resume in-person sessions while at the same time providing them on Zoom for those who want to attend virtually. I should underscore that presentations are also available for viewing from our Canvas library for those who cannot make the time of the presentation. Our excellent volunteer tech staff will help anyone access programs via Zoom or our growing library.

Looking forward to seeing you this semester!

*Ed Miller,
President of LIFE*

LIFE BOOK DISCUSSION

Discussion of “Main Street” by Sinclair Lewis. The story is set in the small town of Gopher Prairie, Minnesota, a fictionalized version of Sauk Centre, Minnesota Lewis’s hometown. The novel takes place in the 1910s, with references to the start of World War I, the United States’ entry into the war, and the years following the end of the war, including the start of Prohibition. Satirizing small town life, “Main Street” is perhaps Sinclair Lewis’s most famous book, and led in part to his eventual 1930 Nobel Prize for Literature. It relates the life and struggles of Carol Milford Kennicott as she comes into conflict with the small-town mentality of the residents of Gopher Prairie. Highly acclaimed upon publication, “Main Street” remains a recognized American classic.

LIFE BOOK DISCUSSION

Discussion of "The Four Winds" by Kristin Hannah. Texas, 1934. Millions are out of work and a drought has broken the Great Plains. Farmers are fighting to keep their land and their livelihoods as the crops are failing, the water is drying up, the dust threatens to bury them all. The Dust Bowl era has arrived with a vengeance. In this uncertain and dangerous time, Elsa Martinelli must make an agonizing choice: fight for the land she loves or go west, to California, in search of a better life.

LIFE BOOK DISCUSSION

Discussion of “The Song of the Lark” by Willa Cather, first published in 1915. This was her third novel to be published and follows the great journey of a young lady from a small town in Colorado that ventures all the way to Chicago to follow her dreams of becoming a pianist. Set at the turn of the twentieth century, it shows her skill set shift from wanting to be a pianist into becoming an opera singer. Copies of the book or ebook can be found through your local library. Libraries in Marshfield, Wausau, and Wisconsin Rapids would like you to request copies on an individual basis. Stevens Point Library has a shelf with the books already pulled and ready for check out.

ICELAND: KNITTING UNDER THE NORTHERN LIGHTS - ROUND 1

This trip is custom made with a focus on introducing the history, culture, and rich tradition of knitting in Iceland. Our group will meet local sheep farmers, visit a local mini mill, and learn about the production of lamb wool. We will also participate in a workshop where we hand dye our own yarn with Icelandic herbs. There will be time to visit the more popular tourist sights on the Golden Circle and soak in a natural hot pool.

September 15-19 (Pre-registration required)

Location: Iceland

ADOPTION - A HISTORY OF ITS MANY MANIFESTATIONS AND IMPLICATIONS!

Adoption: a process whereby a person assumes the parenting of another, usually a child, from that person's biological or legal parent or parents. Legal adoptions permanently transfer all rights and responsibilities, along with filiation, from the biological parent or parents. How this practice has been employed throughout history has fueled legends, moved large populations and created family mysteries.

JUSTICE: ORIGINS, MEANINGS AND SOME PROBLEMS

Everyone wants Justice. People march for it; nations go to war for it, and philosophic and religions systems, ancient and modern, Eastern and Western, die for it and, if necessary, kill for it. So, what is Justice? Where does it come from? And what problems are raised by commitments to its meanings and its origins?

Monday, September 19

10:00-11:30 a.m.

Location: Hybrid from the Stevens Point Campus, CBB 161

RECYCLING OF PLASTIC, BIO-BASED MATERIALS AND CONVERTING PLASTIC TO OIL, WHICH IS REALLY SUSTAINABLE?

This presentation aims to contribute to an honest dialogue on sustainability of oil-based materials in a consumer context that often includes significant “greenwashing” based on misinformation. This consumer context has raised consumers’ expectations and has put undue burden on many industries and in particular on the plastic and textile industries. This presentation will shed some light on these issues and raise some serious questions.

THE MONTY HALL PROBLEM, OR, CAN YOU AVOID THE GOAT?

You’re a finalist on the 1970’s game show, “Let’s Make a Deal”. You choose door 1, of 3, hoping the car is hidden behind it. Monty Hall opens door 2, showing one of the 2 goats. He’ll let you switch to door 3. But you decide to stay, since it’s now a 50-50 chance door 1 hides the car. Did you make the right choice? Millions agree with you, but science says you should have switched!

We’ll cover all sides of this problem which has perplexed even university professors. But the world’s smartest person wasn’t fooled! There’s a 100% guarantee that you’ll be smarter for having participated!

SPACE ASTRONOMY: THE WISCONSIN ROOTS OF ASTRONOMY DONE IN SPACE

Wisconsin astronomers were some of the world’s first to expand their research to the use of instruments in space when that field suddenly came into existence in 1957. Why Wisconsin? The answer lies in the astronomical research of Wisconsin astronomers as far back as the early 1920s, which positioned the venerable Washburn Observatory to be a foundation of the new field of space astronomy. We will look at those technological developments and see how the products of it resulted in Wisconsin-built instrumentation becoming major contributions to the Orbiting Astronomical Observatory, Space Shuttle missions, the Hubble Space Telescope, and many other applications in space-based astronomy.

TOOLS FROM THE PSYCHOLOGIST'S WORKBENCH - PART 1

We all have tools. For some of us, it's a hammer and screwdriver. For others it's a workbench filled with drills, saws, ratchet sets, etc. We also have psychological tools that help us handle the challenges in life. As a health service psychologist, Dr. Schulein has spent his career assisting others in developing and applying powerful tools to support them through life's challenges and to thrive. In this two class presentation, Dr. Schulein will share his top ten life tools. The discussion will be practical and readily usable, just like tools should be.

LIFE BOOK DISCUSSION

Discussion of “The Red Badge of Courage” by Stephen Crane, Copyright 1895. The tale of a young private during the American Civil War. After fleeing the battlefield, he must push through the negative image of being a coward and continue on with his life. Overcome with shame, he longs for a wound, a “red badge of courage” to counteract his cowardice. When his regiment once again faces the enemy, Henry acts as standard-bearer, who carries a flag. THE EARTH WITHOUT PEOPLE - PART 1

Through the minds of scientists - biologists, engineers, chemists, ecologists, conservationists, metallurgists, astrophysicists, ecologists, radiologists working with computers, and set designers - this documentary presentation contemplates EARTH WITHOUT PEOPLE. This Part I and Part II presentation is more than a message showing realities and possibilities. The hidden question is, "Besides re-procreation, what can we in our lifetimes do so that the earth is with people?" My curiosity asks for your thoughts.

SPIRITUALISM, THE PHANTASMAGORIA AND GHOSTS AT THE DAWN OF CINEMA

Though we often think of horror as a more modern genre of film, introduced by the German Expressionists, honed by Hammer films in the 50s, perfected by Hitchcock, and made grotesque in the 70s and 80s, the roots of horror in cinema are deep indeed. This talk looks specifically at the precinematic precedents for the hauntings on screen, with explorations of practices of 19th century spiritualism and photography, as well as theater performances of the macabre, and finally early film's exploration of the supernatural.

BIZARRE BEHAVIOR OF ROTATING BODIES

The "Dzhanibekov effect" was kept a state secret by the Soviets for 10 years while they tried to determine if it might foretell the 'end of the world'. What does the spinning earth have in common with a flipping tennis racket? The first video we'll watch explores this now de-classified secret with many real-world examples. A second video provides us with a solid mathematical basis for an intuitive understanding of this unique but everyday behavior. There should be plenty of time to stop and handle any questions you have.

THOMAS AND THE OTHER GOSPELS - PART 1

The Gospel of Thomas, found among other ancient Christian documents at Nag Hammadi, Egypt, in 1945, presents 114 “sayings of Jesus.” About half of them have parallels to material in the canonical gospels; these are intermixed with many previously unknown sayings attributed to Jesus. Session 1 will examine sayings with parallels in the synoptic gospels (Mark, Matthew, Luke) to consider what the Gospel of Thomas might add to their representations of the teachings of Jesus.

THOMAS AND THE OTHER GOSPELS - PART 2

The Gospel of Thomas has the greatest theological affinity with the Gospel of John, but with significant differences as well. Indeed, the author of the Gospel of John may have composed parts of his story, especially those featuring the disciple “Thomas,” in opposition to Thomas Christians. We’ll check out this possibility while seeking to understand the Gospel of Thomas’ distinctive interpretation of Christian life.

EMPOWERMENT OF DIVERSE VOICES THROUGH COMMUNITY SPACES

The United States Census Bureau (2020) reported that 8.7% of Wisconsin's citizens over the age of five (475, 226 people) identified speaking a language other than English. Additionally, 34.9% (165, 664 people) identified speaking English less than very well. Despite representation of diverse cultures within the United States including in Wisconsin, there exists a cultural difference between K-12 teachers and their students (Wisconsin DPI, 2019). As community leaders, we have the critical responsibility to serve these community members from diverse cultural and linguistic backgrounds. This session offers participants the opportunity to learn about strategies that two UWSP assistant professors have utilized to empower diverse voices within community spaces in efforts to advance equitable literacy opportunities within our state.

WISCONSIN'S WAR OVER WATER

"A War over Water." That was how journalist Lee Berquist described the ongoing political and legal fight over groundwater pumping and its impacts. Groundwater, the underground water that we pump from wells for domestic, agricultural, and industrial wants, is also the water that nourishes lakes, streams, and wetlands. While groundwater is important for human consumption, it is vital for fish, wildlife, and Wisconsin's outdoor heritage. Wisconsin has been slow to enact policies to manage groundwater pumping. In the 2010s and 2020s, conservation and high capacity well interests clashed as to whether pumping should be unlimited, or managed in amounts consistent with healthy surface water bodies. Wisconsin is far from resolving the issue.

Referral Program

Interested in being entered into a drawing for a free Spring 2023 Membership? Eager to share the LIFE program with friends and family? If the answer to these questions is YES, then please read on!

LIFE members may bring guests for a one time “free” class. If the guest decides to become a member, both the veteran LIFE member and new LIFE member will be entered in a drawing for a LIFE membership.

What is LIFE? An “elevator pitch” follows:

- A membership-based association of nearly 400 adult learners providing an opportunity to share learning experiences and to discover new joys in life.
- There are no requirements to join this group of adult learners in their quest to be informed, to learn more, and to pursue their interests.
- LIFE offers 50-60 individual learning opportunities per semester, led by visiting experts, community leaders, UWSP faculty, and LIFE members.
- Included in the classes are opportunities for field trips to experience learning about area events, institutions, and activities.
- Classes include enthusiastic discussion between the presenters and participants.
- Cost: \$50 for a semester membership
- Come join us!
