**SOLUTIONS** IS OUR MIDDLE NAME

# ABOUT US

Topcon Solutions Store was designed to offer a new concept for a civil/survey/construction equipment provider. Not just an “equipment house”, we are here to provide a complete solution to our customers. Not only do we provide the measuring and control hardware systems, but the complete office software solutions through our partnership with Autodesk.

Hardware and software is just the beginning. The real advantage we offer is supporting you with industry leading training & technical support. From field troubleshooting to local service & repair, and the widest range of everyday field supplies and accessories, we’ve got you covered!

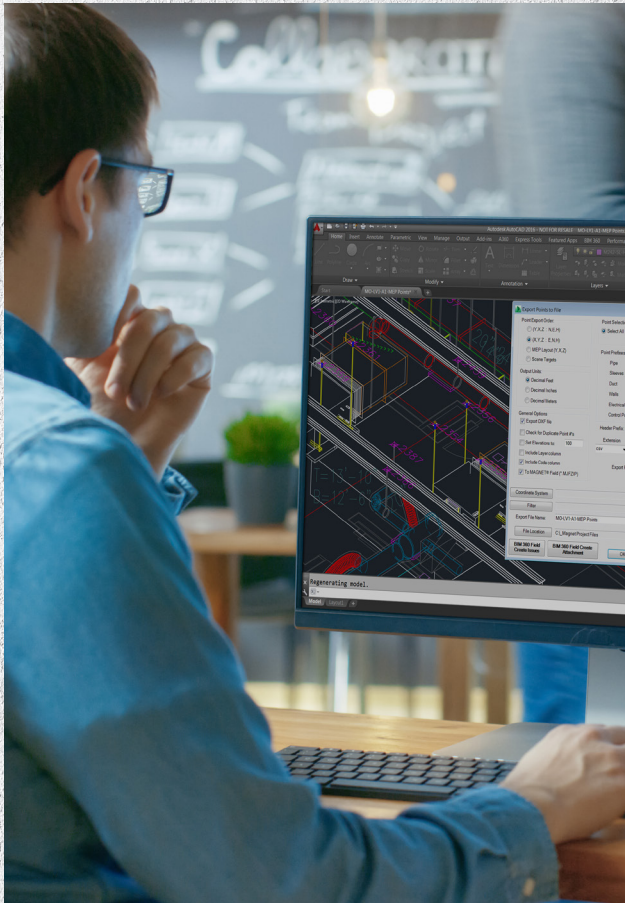

*We strive to develop long-term customer relationships through our innovative solutions, technology expertise and prompt service.*

# SOFTWARE SOLUTIONS

Our team of software experts work hard to deliver the right software solutions to fit your needs. We have extensive experience and understanding of the architecture, engineering and construction industries. That expertise along with our partner Autodesk and our professional training & support team, allows us to deliver the complete workflow solutions you demand.

## TRAINING

An employee's skills are particularly important when new technology is to be implemented into a business. Topcon Solutions Training Center offerings can help boost your team's technical capabilities, allowing you to maximize the return on your software and equipment investments.

## SUPPORT

Our Technical Support team is available M-F via phone, email and web to address your product or workflow challenges. Topcon Solutions training and support is unmatched when it comes to interoperability and workflows between Topcon Positioning equipment and Autodesk A/E/C software.

## SERVICE

Each location houses a full service center and is home to Topcon Warranty Repairs. We service all major brands and offer a full rental line so you can remain in production while your technology is being serviced.

## HARDWARE SOLUTIONS

Topcon Solutions is the factory-direct retail outlet for all Topcon measuring and positioning equipment. Topcon is a global leader with over 100 years of experience manufacturing the very best precision measurement, layout, and 3D positioning technology available including:

- Robotic layout & survey instruments
- GPS base & rover receivers
- Field controllers & software
- 3D machine control systems
- Intelligent milling, paving, and IC solutions
- Drones and aerial measuring technology
- High-speed laser scanners
- Construction lasers (rotating, pipe, & line lasers)
- Automatic levels & theodolites
- And much more...

## FIELD SUPPLIES

When we say we offer our customers a complete solution, it doesn't stop with just a hardware and software solution. At Topcon Solutions, we offer you the convenience of field supplies and accessories from the same outlet you get your hardware and software from. One stop, that's all!

We provide a wide array of field supplies and accessories including:

- Marking Paint & Flagging
- Wooden Stakes & Hubs
- Safety Gear (vests, hard hats, etc)
- Tripods, poles, & level rods
- Monuments, Pins, Nails, and markers
- Traffic signage
- Field books & weatherproof note books
- Measuring tapes of all sizes
- And much more...

Contact us today and ask about our complete supplies catalog. If you can't find something, just ask. Chances are we can find it for you!
