

Tellurian

Recovery Begins Here

Treating the whole person to foster a fresh start

We now know that people struggling with addiction often have accompanying mental health issues such as depression, anxiety or post-traumatic stress. At Tellurian, we integrate mental health counseling and appropriate psychiatric care into treatment. Our 19 bed medically monitored residential treatment program specializes in dual diagnosis treatment that meets each patient exactly where their needs are. The staff at Tellurian is firmly committed to the belief that every person with substance use and mental health disorders has the ability to recover. By offering compassion and understanding, combined with evidence-based treatment modalities, Tellurian focuses on meeting the individual needs of each patient.

Each year we provide treatment, support, and shelter to more than 8,000 people struggling with addiction, substance abuse, and mental health disorders.

“My addiction was out of control and the help and treatment I received at Tellurian put me on the road to recovery and in all likelihood, saved my life!”

Medically Monitored Inpatient Treatment

Treatment can start today.

“ Recovery is being more than a bunch of symptoms and problems. It is learning to live life beyond survival. ”

Our treatment philosophies and programs:

Tellurian specializes in chemical addiction treatment, with an emphasis on co-occurring mental health disorders. Our treatment includes, but is not limited to, individual and group therapy, spiritual care groups, holistic healing, and specialized counseling. Cognitive Behavioral Therapy, Dialectical Behavioral Therapy, Stages of Change, Behavioral Modification, Relapse Prevention, Spirituality and Forgiveness, Yoga, exercise, Expressive art, Lifestyle Balance, and pharmacological treatment are also used when appropriate. Optional outside meetings for Alcoholics Anonymous, Narcotics Anonymous, and Smart Recovery are available for all patients.

Where recovery becomes reality.

Tellurian living:

Tellurian offers a safe, comfortable living environment surrounded by acres of natural beauty. Patients will have the opportunity to enjoy wildlife, walking trails, and the gorgeous grounds of the Aldo Leopold Nature Center, while receiving treatment designed specifically for their unique diagnosis.

Tellurian is a licensed medically monitored treatment facility per Wisconsin DHS75.11 requirements.

Tellurian treatment:

We understand that each path to recovery is unique. Our adult residential treatment program, led by a physician board-certified in addiction medicine, is modeled on an average 30 day length of stay. Tellurian counselors develop treatment plans that reflect each individual’s needs, to insure the best possible outcomes. Each Tellurian clinical team member is state certified and licensed, and all counselors have Masters level training or higher. Our expert clinicians specialize in co-occurring addiction and mental health treatment and are experienced in many treatment disciplines.

Maximizing benefits. Minimizing costs.

Tellurian has extensive experience working with major regional and national insurance companies and managed care providers. Our admissions and billing departments work diligently with each patient’s insurance company to maximize benefits and keep out of pocket treatment expenses to a minimum. We want you to be able to focus on yourself and get the most out of your treatment while you are here.

Trusted. Experienced. *Since our founding in 1971, Tellurian has provided a full continuum of innovative services to those struggling with substance use and/or mental health disorders. Tellurian’s staff of more than 200 employees provides treatment and support in more than 20 programs serving individuals throughout Wisconsin and the Midwest.*
