

Students are the future of our community and we would love to give you a chance to see what Hospice is like without the pressure of a long-term commitment. When people hear about hospice, it comes with a stigma, we want to change that. This is a great way for you to see if Hospice is a route you are interested in after graduation. We also take Interns if there is a need for hours.

If you are going to a *specific field* and would like to pair up with a member of our staff to see how they interact with our patients, we can arrange that as well. Specific fields include, but are not limited to: RN, Social Work, Health Care Administration, Marketing, Music, Community Health, ect.

Below is a brief description of ways they can volunteer.

- **Direct Care Volunteer:** Provides a range of companionship and support to patients and caregivers at the bedside
- **Administrative Volunteer:** Supports the important office operations of the program.
- **Pet Companion Volunteer:** Uses certified therapy animals to engage patients.
- **Music Companion Volunteer:** Shares the gift of music with our patients and families.
- **Vigil Volunteer:** When family support is not available, we want to make sure that no patient dies alone.
- **Veteran Volunteer:** No one understands the unique needs of our Veterans better than active or retired military personnel.
- **Bereavement Volunteer:** Provides support to families throughout their first year of bereavement services.
