

REGISTRATION IS REQUIRED FOR STUDENT TEACHING!

1. Applying to student teach and registration:

- You must register for the student teaching sections listed below during the normal registration process, as well as the appropriate "Educ 400." *See note below about Education 400.
- You will need to know what sections you will need to register for, as well as number of credits required, when you go on-line to apply to student teach. The chart below helps explain the sections and minimum credits required for student teaching.
NOTE: For ECE, Elementary Ed, Physical Ed and Special Ed majors, please see your graduation plan for credits required for student teaching. This chart indicates minimum credits required, but in some cases, you may need to take a higher number of credits to graduate.

2. Internship Applicant?

If you are applying for an internship, you should register as a student teacher (398), as per department policy. If you end up receiving an internship (498), Cathleen Olds, Director of Field Experiences, will change your registration.

3. Make sure your records are in order:

- a) Please apply to graduate through MyPoint if you have not already done so and are seeking a degree.
- b) If you already have a degree, but are seeking a new major or minor, you must fill out a form at the Records and Registration office for every new major or minor you want added to your transcript. If a major or minor is not listed on one of your transcripts, your teaching license will take an additional 4-8 weeks to process.

4. Education 400 or department equivalent is now required of everyone:

PI34 requires university approval of your final portfolio. All students are required to take Educ 400, sec 1, 1 credit or their department equivalent. The following departments offer a department equivalent. If your department offers an equivalent, it must be taken in lieu of Educ 400: English Education 400, Family and Consumer Education 400 (FSC 400 is 2 crs), Foreign Language Education 400, Music Education 400, all Science majors take Education 400 for spring 2023 (normally Biology Education 400).
