Employee Spotlight

Meet Kevin Leick! Kevin has been a member of Facility Services for 3 years. Kevin described himself in High School as “outgoing and involved in sports and other activities”.

We asked Kevin what we would find his radio tuned to in his vehicle and Kevin responded “Sirius XM radio’s Prime Country Channel, 80’s or Classic Rewind”. Kevin’s favorite film is the 1998 comedy “The Water Boy” starring Adam Sandler. I wonder if Kevin has ever driven his lawn tractor to work? It is one funny film.

We asked Kevin what he would do if he suddenly became a millionaire to which Kevin replied “I would donate to my favorite charities and church, pay off my remaining bills, pay college tuition for the kids and save some for retirement”. Great plan!

Kevin enjoys working for UWSP and enjoys his interaction with his fellow T.E.A.M. and Facility Services members and enjoys spending valuable time with his family. Our thanks to Kevin and Mary Mueller for conducting this interview.

DATELINE: MAY 5, 1961

Alan Shepard became the first American in space. He piloted the spacecraft Freedom 7 during a 15-minute, 28-second suborbital flight that reached an altitude of 116 miles (186 kilometers) above the earth. Shepard's success occurred 23 days after the Russians had launched the first-ever human in space, cosmonaut Yuri Gagarin, during an era of intense technological competition between the Russians and Americans called the Space Race!
