THE UWSP FACILITY SERVICES NEWSLETTER

MARCH, 2018

The Facility Services - Academic Custodial work unit has been utilizing a new tool in the fight against cold and flu germs this season. The Clorox® Total 360® System uses a patented electrostatic delivery system that quickly and easily provides superior coverage of trusted Clorox® disinfecting and sanitizing solutions by helping them “cling” to these potentially infected surfaces, like desks, locker rooms or door handles. The system works by charging and atomizing the Clorox® disinfecting or sanitizing solution, delivering a powerful flow of charged cleaning particles that are attracted to surfaces with a force stronger than gravity. This allows the disinfecting or sanitizing product to reach and consistently coat surfaces, including areas where conventional trigger sprays may easily miss.

FACILITY SERVICES ANNIVERSARIES

CONGRATULATIONS TO THE
FOLLOWING EMPLOYEES
WHO CELEBRATED AN
ANNIVERSARY AT UWSP IN
FEBRUARY

PAUL HOFFMAN

Facility Repair Worker-Advanced
5 years of service

RICK OLSON

Maintenance Mechanic-Advanced
5 years of service

It's almost time to spring forward!

Daylight saving time begins this Sunday, March 11, at 2:00 a.m. Remember to set your clocks ahead one hour!

Words of Wisdom?

I invited my girlfriend to go to the gym with me, but she stood me up. I guess the two of us aren't going to work out.

A musician told me he was going to hit me with the neck of his guitar. I replied, "Is that a fret?"

You know you're getting old when you go to an antique auction and three people bid on you.

A burglar stole all the lamps in my house. I know I should be more upset, but I'm absolutely delighted.

Two windmills are standing in a wind farm. One asks, "What's your favorite kind of music?" The other says, "I'm a big metal fan."

BEWARE THE IDES OF MARCH

We've all heard it uttered, but what does "beware the Ides of March" actually mean? On the Roman calendar, the midpoint of every month was known as the Ides. The Ides of March fell on March 15th. This day was supposed to correlate with the first full moon of the year (remember, winter didn't count then) and marked by religious ceremonies, but thanks to Shakespeare's Julius Caesar we know it for another reason. Supposedly, in 44 BC, a seer told Julius Caesar that his downfall would come no later than the Ides of March. Caesar ignored him, and when the fated day rolled around he joked with the seer, "The Ides of March have come." The seer replied, "aye, Caesar; but not gone." Caesar continued on to a senate meeting at the Theatre of Pompey, and was summarily murdered by as many as 60 conspirators.
