If financial aid has already disbursed, you may be required to repay financial assistance you have already received if you are no longer eligible for those aid programs. If aid must be reduced, the order of reduction will be loans, work-study, and then grants.

Outside scholarships will not be credited to your student account to pay the bill from UWSP until the funds from the awarding organization(s) are received and processed by the UWSP Bursar's Office. If your scholarship(s) requires enrollment verification, please request that directly from the Office of the Registrar.
