Appvion	Yes	Appvion is the market leader in manufacturing specialty and high-performance coatings for direct thermal and film applications in North America. We innovate sustainable specialty coating solutions that are a part of many tickets, labels, tags, and packages consumers touch daily.
Archroma		Archroma is a global, diversified provider of specialty chemicals serving the branded and performance textiles, packaging and paper, and coatings, adhesives and sealants markets. Headquartered in Pratteln, Switzerland, the company operates a highly integrated, customer-focused platform that delivers specialized performance and color solutions in over 90 countries. Archroma works with about 4,500 employees in 42 countries and with over 30 production sites
BiOrigin SP		Specialty paper manu
Clearwater Paper Corporation	Yes	We are a premier private brand tissue manufacturer and producer of high-quality paperboard products. Our products can provide more sustainable alternatives to products made from non-renewable resources. We are grounded in our core values of commitment, collaboration, communication, courage and character. We are driven by purpose to make important products people use every day.
Domtar	Yes	We are the largest integrated manufacturer of uncoated freesheet paper in North America, and a leading manufacturer of papergrade, fluff and airlaid nonwoven materials.
ERCO Worldwide		ERCO Worldwide is an industry leader in the manufacture of inorganic chemicals. We have a strong reputation for innovation, helpfulness, and premium service. We credit our deep-rooted history and hard-earned reputation to our inspiring employees and their unwavering commitment to serving our customers and planet. Our products are ingredients in, or serve as inputs for, manufacturing tens of thousands of products used by virtually every industry, business, household and person, from vitamins to fertilizers to cancer treatments.
ERCO Worldwide (USA) Inc.		For over a century, ERCO Worldwide has stood as an industry leader in the manufacture of inorganic chemicals. We have a strong reputation for innovation, helpfulness, and premium service. We credit our deep-rooted history and hard-earned reputation to our inspiring employees and their unwavering commitment to serving our customers and planet. ERCO endeavors to provide unmatched value and expertise through sustainable, intelligent, and reliable products and solutions, creating genuine customer relationships.
Essity	Yes	Essity is a global leader in health and hygiene with our corporate headquarters in Stockholm, Sweden, and North American headquarters in Philadelphia, PA. We are a multi-billion-dollar company that is committed to breaking barriers to well-being. Essity does this through innovative brands in the areas of Professional Hygiene, Consumer Goods, and Health & Medical Solutions. Working at Essity is not just a career; it is a chance to directly make the world a healthier, more hygienic and safer place. With impactful innovations coupled with sustainable solutions, we strive to reach more people every year with the necessary and essential solutions for well-being. At Essity you will find a caring and compassionate culture where we remain grounded in our beliefs & behaviors.
Georgia-Pacific	Yes	Our life's work is to help people improve their lives by making and innovating products and services our customers value. With 130,000 employees and locations in nearly every U.S. state and 60 countries, Koch companies offer abundant opportunities to improve life's most necessary things- like food, clothing, water, transportation, and the technology. Our focus is on delivering mutual benefit: Win-win outcomes that make life better for customers and employees alike. At Georgia-Pacific, our paper products, such as bath tissue and paper towels, are at-home essentials. And our sturdy building materials make homes and commercial buildings possible. Brands include Quilted Northern®, Angel Soft®, Brawny®, and Dixie®.
Graphic Packaging	Yes	
Green Bay Packaging	Yes	
International Paper	Yes	
James Hardie Building Products	Yes	James Hardie Building Products Inc. is the North American leader in fiber cement home siding and exterior design solutions. Hardie® products offer long lasting beauty and endless design possibilities with trusted protection and low maintenance. The company pioneered modern fiber cement building products and continues to invest in innovation to transform the industry. James Hardie is a high-performance organization, with an unwavering commitment to Zero Harm. The company proudly employs a diverse workforce of over 3,000 employees across operations in North America.

PSChE Career Fair - Companies Attending. September 23rd, 4-7pm. DUC Laird room.

Company	Interviewing?	Short description of your company
Kadant		Kadant Solutions, based in Auburn, Massachusetts, develops, manufactures, and markets a wide range of doctoring, cleaning, filtration, and forming systems and related consumables used in process industries worldwide including construction roofing materials, food processing, metals processing, nonwovens, pulp and paper, textiles and fibers, and tissue.
Kemira Water Solutions	Yes	Kemira is a global leader in sustainable chemical solutions for water-intensive industries. Our customers include industrial and municipal water treatment operators, and pulp & paper industry among others. We provide the best-suited products and services to improve our customers' product quality, process, and resource efficiency. Our focus is on water treatment, renewable solutions, and digital services.
Kimberly Clark	Yes	For 150+ years, Kimberly-Clark has challenged conventional wisdom to reimagine how we can better serve our consumers and impact the world around us. We've invented new product categories and built an +\$18 billion global business behind top brands such as Kleenex®, Scott®, Huggies® and U by Kotex®. In 2019, Kimberly-Clark is rated by Forbes Magazine as one of the most reputable companies
Liberty Paper, Inc		Small paper mill in Becker, MN
Mativ (Neeah Inc.)	Yes	Mativ Holdings, Inc. is a global leader in specialty materials headquartered in Alpharetta, Georgia. The company makes material impacts on the world every day through a wide range of critical components and engineered solutions that solve our customers' most complex challenges. We manufacture on three continents and generate sales in nearly 100 countries through our family of business-to-business and consumer product brands. The company's two operating segments, Advanced Technical Materials and Fiber-Based Solutions, target premium applications across diversified and growing end markets, from filtration to healthcare to sustainable packaging and more. Our broad portfolio of technologies combines polymers, fibers, and resins to optimize the performance of our customers' products across multiple stages of the value chain. Our leading positions are a testament to our best-in-class global manufacturing, supply chain, and materials science capabilities. We drive innovation and enhance performance, finding potential in the impossible.
McKinley Paper	Yes	
Nalco Water	Yes	A global leader in water and process management solutions, Nalco Water, an Ecolab company, works with customers across a wide range of industries to help meet their specific sustainability and business goals. With a presence at more than 100,000 customer sites, our solutions combine connected chemistry, digital innovation and extensive expertise to minimize water and climate impacts while maximizing outcomes at an optimized total cost.
Nekoosa Coated Products		You know Nekoosa as a premier manufacturer of specialty print media, with a 60-year legacy of innovation. We've built upon the foundation of Nekoosa Coated Products by acquiring brands like RTape, Catalina Graphic Films, Mojave Digital Media, ClingZ, NCR Paper and CET Films. Today, Nekoosa's expertise spans coating, converting and custom plastic extrusion capabilities, with a product offering that includes wide and grand format rolls, offset, Screen, HP Indigo and dry toner sheets, cut films, application tapes and premasks, carbonless papers and extruded films. Looking for the highest quality specialty print media substrates
Ortho Molecular Products		We manufacture nutraceuticals.
Packaging Corporation of America		As a Fortune 500 company, Packaging Corporation of America (PCA) is an ideas and solutions company. Our corrugated packaging business seeks to be the leader in helping our customers — large and small — package, transport and display products of all kinds. We have approximately 15,000 team members in more than 100 locations in the United States that strive to meet the needs of our customers. Our mission is to serve the needs of our customers, today and tomorrow, with products and services that exceed expectations for performance and environmental responsibility. PCA Tomahawk Mill is a fully integrated pulp and paper mill located in Northern Wisconsin. The Tomahawk Mill produces high quality corrugating medium, which is used in the manufacture of corrugated board. Corrugated board is produced in the box plants and converted to corrugated containers that protect the nation's goods during handling and shipping. The PCA Tomahawk Mill strives to achieve the highest level of quality in all our packaging products.
Packaging Corporation of America	Yes	Packaging Corporation of America (www.packagingcorp.com), headquartered in Lake Forest, IL, is one of the largest integrated producers of corrugated packaging in North America. Our International Falls, Minnesota facility has been making high-quality, dependable paper products for nearly 115 years. As an integrated pulp and paper facility, the International Falls Mill currently produces over 475,000 tons of commodity and specialty papers annually on two paper machines, including one of the world's largest machines (I1).
Pixelle Specialty Solutions	Yes	Pixelle Specialty Solutions® is one of the largest and fastest-growing manufacturers of specialty papers in North America, with one of the most comprehensive portfolios in the industry. Through innovation, quality, and expertise, Pixelle delivers high-performance solutions that help customers boost brand appeal, improve customer experience and support sustainability goals.
Sappi Cloquet LLC		Located on the banks of the St Louis River since 1898, our Cloquet Mill produces high quality graphic papers. The mill can swing production between paper grade pulp for internal consumption and dissolving pulp (DP) for the open market. Our integrated pulp and paper mill in Cloquet, Minnesota, is the most modern pulp mill operating in the US. By utilizing Continuous Batch Cooking, we are able to achieve extended delignification while maintaining high yield and strength properties. Also in 2013, we further modernized the pulp mill by adding two additional batch digesters as well as an acid pre-hydrolysis stage and an ozone bleaching stage. These changes, along with modifications to our wood yard and pulp dryer, enable the mill to make either dissolving pulp for the textile market or bleached kraft pulp used for papermaking.
Shawano Specialty Papers	Yes	
Solenis LLC		Solenis solves tough water treatment, process improvement and hygiene challenges for customers in consumer, industrial, institutional, food and beverage, and pool and spa water markets through people, experience and technology. Our solutions help conserve natural resources and promote cleaner and safer environments.
Sonoco Products Company	Yes	
Sustana Fiber	Yes	Sustana is an industry-leading producer of quality fiber-based products and services built on a solid commitment to sustainability and continuous improvement. From recovery to fiber to paper production, we produce the clean materials used in coffee cups, food packaging, your favorite book, and so much more.

PSChE Career Fair - Companies Attending. September 23rd, 4-7pm. DUC Laird room.

Company	Interviewing?	Short description of your company
Suzano America		We are a Brazilian multinational company with 100 years of history. We learned from trees that life is always renewing itself and that, with them, it is possible to create a more sustainable future. As the largest pulp manufacturer in the world, one of the largest paper producers in Latin America and the leader in the toilet paper segment in Brazil, we are part of the bioeconomy. This drives us to develop sustainable, innovative and renewable products made from eucalyptus, which is planted and harvested by us for this purpose.
Toscotec North America	Yes	A leading supplier of equipment related to the manufacturing of tissue and board papers
