Company	Interviewing?	Short description of your company
<b>Ahlstrom</b> (Pixelle now a part of Ahlstrom)	DUC 211 & 235	Ahlstrom is the global leader in fiber-based specialty materials. Our purpose is to Purify and Protect with Every Fiber, for a Sustainable World. We aim to be the Preferred Sustainable Specialty Materials Company for all our stakeholders. Our three divisions, Filtration and Life Sciences, Food and Consumer Packaging, and Protective Materials along with Performance Materials cluster, address global trends with safe and sustainable solutions. We add value by combining fibers with our advanced technology and innovative and entrepreneurial culture, constantly exploring novel materials and new applications. Sustainability, innovation and quality are central in all our solutions such as compostable food and beverage processing and packaging materials, liquid and air filtration media, diagnostic materials and protective medical fabrics.
<b>Albany International</b>	DUC 378	Albany International is a leading materials science developer and manufacturer of engineered components, using advanced materials processing and automation capabilities.
<b>Amcor</b>	SCI D132	
<b>Andritz Inc</b>	DUC 376	ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding, and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
<b>Applied Material Solutions, INC</b>	None	
<b>Axchem USA</b>	DUC 223	Axchem supplies a broad and deep product range spanning water treatment, pulping, papermaking, converting, and other related specialty chemical applications. This toolbox is then supplied via a full-strength field sales and service team, representing expertise across the process areas we support. The combination of products, application expertise, and low product and overhead costs allows us to provide the right product / application / service solution for most P&P industry needs at a price point that offers a savings over traditional P&P specialty chemical suppliers.
<b>Billerud, N.A.</b>	TNR 372	Billerud: High-Performance Packaging for a Low-Carbon Future At Billerud, we create renewable, recyclable packaging materials from responsibly managed Northern forests—delivering exceptional performance, consumer appeal, and cost efficiency. Our fiber-based solutions offer a sustainable alternative to fossil-based packaging, helping reduce carbon footprints across the value chain and supporting a circular economy. We are committed to continuous innovation, from responsible sourcing to advanced material development, empowering our customers to make smarter, more sustainable packaging choices. With ten production facilities across Sweden, the U.S., and Finland, and 5,800 employees serving customers in over 100 countries, we’re leading the way toward a future of lighter, stronger, and more climate-friendly packaging. <a href="https://www.billerud.com">🔗 Learn more at billerud.com</a>
<b>Cascades</b>	CCC306	
<b>Domtar</b>	SCI A112	Domtar is a leading, privately held manufacturer of diversified forest products, with a workforce of about 14,000 employees in more than 60 locations across North America. The company has an annual production capacity of 9.1 million metric tons of pulp, paper, packaging and tissue, and approximately 3 billion board feet of lumber and other wood products. Formerly known as the Paper Excellence Group, Domtar is comprised of legacy businesses Paper Excellence, Domtar and Resolute Forest Products.  Domtar prides itself on operational excellence, delivering sustainable, high-quality and cost-effective products to meet and exceed customer needs globally. The company is committed to turning sustainable wood fiber into everyday essential products.
<b>Ecolab</b>	CCC 233	Nalco Water is a global leader in industrial water management, in more than 100,000 customer sites worldwide. The
<b>Essity</b>	CPS 210	Paper Manufacturer and converting plant. We convert 100% recycled paper into napkins, toilet tissue, roll towel and facial tissue
<b>Fehr Graham</b> (E.Coleman)	SCI D230	It started with an alliance between two engineers – Allen Fehr and Joseph Graham - in Freeport, Illinois. After a decade of competing against one another and witnessing each other’s capabilities, they developed a mutual trust. They teamed up, and Fehr Graham was born.  Five employees reported to work Sept. 15, 1973, to a firm that offered engineering and surveying services. Today, Fehr Graham employs 250+ employees across our offices in Illinois, Iowa and Wisconsin. And we offer civil engineering, structural engineering, safety and environmental services and more. Like our founders, we improve the communities where our clients – and our employees – live and work.
<b>Fehr Graham</b> (Olivia S.)	None	Engineering and Environmental Consulting Firm
<b>Georgia-Pacific</b>	CAC 239	Georgia-Pacific, a Koch company, is one of the world’s leading manufacturers and marketers of building products, tissue, packaging, paper, cellulose, and related chemicals. The company employs more than 30,000 people at approximately 300 locations in North and South America. Georgia-Pacific creates long-term value by using resources efficiently to provide innovative products and solutions that meet the needs of customers and society, while operating in a manner that is environmentally and socially responsible and economically sound.
<b>Green Bay Packaging</b>	SCI D281	
<b>Hydrite Chemical Co</b>	None	Hydrite Chemical Co. is a family-owned company headquartered in Brookfield, Wisconsin, founded in 1929. It is a leading independent manufacturer and distributor of chemicals, offering over 5,000 products for industries such as food sanitation, water treatment, and organic processing. With a network of facilities across the U.S., Hydrite serves a broad range of customers, providing tailored solutions for complex chemical needs. The company is known for its commitment to quality, innovation, and sustainability. Hydrite's expertise and customer-focused approach have earned it a strong reputation in the industry.
<b>International Paper</b> (A.Lutz)	SCI D320	
<b>International Paper</b> (M. Nightengale)	SCI B240

Company	Interviewing?	Short description of your company
<b>Kimberly-Clark</b>	CPS 209 & 222	Huggies®. Kleenex®. Cottonelle®. Scott®. Kotex®. Poise®. Depend®. Kimberly-Clark Professional®. You already know our legendary brands—and so does the rest of the world. In fact, millions of people use Kimberly-Clark products every day. We know that these amazing Kimberly-Clark products wouldn't exist without talented professionals, like you.  At Kimberly-Clark, you'll be part of the best team committed to driving innovation, growth and impact. We're founded on 150 years of market leadership, and we're always looking for new and better ways to perform – so there's your open door of opportunity. It's all here for you at Kimberly-Clark; you just need to log on!
<b>M2S Group - Appvion &amp; Nekoosa</b>	None	
<b>Mativ Holdings, Inc.</b>	None	Mativ is a global leader in specialty materials headquartered in Alpharetta, Georgia. The Company offers a wide range of critical components and engineered solutions to solve our customers' most complex challenges.
<b>McKinley Paper &amp; Packaging</b>	None	
<b>ND Paper</b>	CPS 127	As the US Division of Nine Dragons Paper (Holdings) Limited, the largest containerboard producer in China and Asia with \$10 billion annual sales, we are part of a strong, global manufacturing operation and a rich customer-focused tradition.
<b>Ortho Molecular Products</b>		
<b>Packaging Corporation of America*</b>	DUC 374	Packaging Corporation of America (www.packagingcorp.com), headquartered in Lake Forest, IL, is one of the largest integrated producers of corrugated packaging in North America. Our International Falls, Minnesota facility has been making high-quality, dependable paper products for nearly 115 years. As an integrated pulp and paper facility, the International Falls Mill currently produces over 475,000 tons of commodity and specialty papers annually on two paper machines, including one of the work's largest machines (I1).
<b>Packaging Corporation of America*</b>	CPS 229	As a Fortune 500 company, Packaging Corporation of America (PCA) is an ideas and solutions company. Our corrugated packaging business seeks to be the leader in helping our customers — large and small — package, transport and display products of all kinds. We have approximately 15,000 team members in more than 100 locations in the United States that strive to meet the needs of our customers. Our mission is to serve the needs of our customers, today and tomorrow, with products and services that exceed expectations for performance and environmental responsibility.  PCA Tomahawk Mill is a fully integrated pulp and paper mill located in Northern Wisconsin. The Tomahawk Mill produces high quality corrugating medium, which is used in the manufacture of corrugated board. Corrugated board is produced in the box plants and converted to corrugated containers that protect the nation's goods during handling and shipping. The PCA Tomahawk Mill strives to achieve the highest level of quality in all our packaging products.
<b>ProAmpac</b>	None	ProAmpac is a leading global flexible packaging company with comprehensive product offering.
<b>Sappi</b>	None	Sappi uses renewable resources to make woodfibre based products. We are a diversified, innovative and trusted leader focused on sustainable processes and products, and are building a circular economy that benefits the world.  Our packaging papers, graphic papers, pulp and biomaterials are manufactured from woodfibre sourced from sustainably managed forests, in production facilities which, in many cases use internally generated bioenergy. Many of our operations are self-sufficient.  We have manufacturing operations on three continents and sell our products in more than 150 countries. Our global presence allows us to optimize for different markets, while sharing best practices and the latest technological achievements.
<b>Shawano Specialty Papers, Little Rapids</b>	DUC 236	
<b>Smurfit Westrock</b>	None	Smurfit Westrock, a global leader in sustainable paper and packaging, operates in 40 countries with over 500 packaging converting operations and 59 paper mills. With the circular economy at the core of our business, we use renewable, recyclable and recycled materials to create sustainable packaging solutions.
<b>Sonoco</b>	None	Sonoco is a \$7.0 billion global manufacturer of consumer packaging, industrial products and protective packaging provider of packaging services for many of the world's best-known brands. We have 23,000+ employees in 285 operations around the globe. Sonoco is proud of being voted the Worlds Most Admired Packaging Company (Fortune) for three consecutive years, and a Best Employer by Forbes as well as receiving a spot on Barron's Most Sustainable Companies list for multiple years. We are world class in our abilities to allow employees to use their talent and skills to grow themselves, their careers and our Company.
<b>Solenis</b>	SCI D216	Provider of specialty chemicals to the pulp and paper industry.
<b>Sustana Solutions</b>	CAC 237	We are a Recycled Fiber Pulp mill. We take various types of wastepaper, deink it, wash it, and bleach it to a target brightness.
<b>Voith MERI Environmental Solutions</b>	None	Company Vision Technological leadership in providing sustainable and innovative solutions minimizing the environmental footprint. Company Description Voith Meri Environmental Solutions is a leading international company active in the field of material handling, water treatment, reject/sludge handling and effluent treatment for paper and other allied industries. We plan, design, and sell equipment and complete water, sludge, and reject sub-systems and effluent treatment plants for environmental interfaces/process steps in new production lines and for the upgrade of existing plants. Meri has branches in Germany, China, Brazil and the US with our North American branch located in Appleton, WI.
<b>Voith US Inc.</b>	SCI B204
