

Annual Report

UWSP OFFICE OF SUSTAINABILITY

ACADEMIC YEAR 2019-2020

Office of Sustainability
University of Wisconsin-Stevens Point

Our Mission

UW-Stevens Point is committed to sustainability and its practice in our daily operations. Sustainability is the human enterprise of living to meet today's needs without compromising the needs of future generations, and to be ecologically sound, socially just, culturally affirming, politically doable and economically viable. We demonstrate our commitment to sustainability through measures such as resource recovery (recycling), composting food waste, energy reduction and continually exploring ideas to promote and support sustainability initiatives.
