SBE Mission: The UWSP School of Business and Economics educates and inspires students and prepares graduates for success in positions of leadership and responsibility. We serve the students, businesses, economy and people of the greater central Wisconsin region. Our students achieve an understanding of regional opportunities that exist within the global economy.

Evidence of our graduates' level of preparation will be found in their ability to:

- Analyze and solve business and economics problems
- Understand the opportunities and consequences associated with globalization
- Appreciate the importance of behaving professionally and ethically
- Communicate effectively

SBE Program Learning Objectives:

Students will be able to apply core concepts, models and methods from business, accounting and economics in identifying and solving problems.

Students will be able to work effectively with others in team settings.

Students will be able to craft and present an effective oral presentation.

Course Description: Introduction to the concepts, objectives and importance of properly designed accounting information systems. Extensive study of internal controls including systems documentation. May not earn credit in both Acct 370 and Bus 370.

Course Objectives: Accounting is increasingly becoming an information systems function, and knowledge of that system is critical for business success. This course emphasizes internal control concepts, technology concepts, and documentation skills necessary for future professional success.

Required Text: Accounting Information Systems, by Gelinas & Dull, South-Western Publisher. Additional readings and projects will be available on D2L.

Academic Conduct: All students are expected to follow ethical practices in their course work. The policies and procedures defined by the Chapter UWSP 14 will be followed. For more information see <http://www.uwsp.edu/admin/stuaffairs/rights/rightsChap14.pdf>

This course is a hybrid course, 25% online and 75% face-to-face.
