COURSE DESCRIPTION

This is a three-credit course that is the final obligatory fulfillment for the Coaching Certificate. The intent of the practicum is to provide each student with experiential learning in the field that allows each the opportunity to apply learned content from the classroom to an actual coaching experience. Each student is required to log a minimum of *50 supervised hours in the field*, whether in practices, competition, or in the office with a supervisor. At the conclusion of their experience, students will be expected to submit a binder that includes a) their supervising coach's written evaluation, and b) a 6-8 page final paper that articulates their present competencies as they relate to [SHAPE America's National Standards for Coaches](#).

It is required for students to take the NFHS course – is \$35.00 for Wisconsin (or take it for the designated state). Here is the link.

COURSE OBJECTIVES

1. Have obtained a quality professional field experience in coaching that allows them to apply content knowledge and integrate the science and art of teaching and communicating with athletes
2. Possess a professional statement of philosophy and core ethical standards that can be articulated both via composition as well as verbally in an interview setting.
3. Acquire a well-rounded, holistic, research-to-practice perspective related to their teaching and interpersonal communication and feedback provided in the athletic setting.
4. Understand their primary legal duties as they pertain to coaching youth sport and will be able to effectively assess and manage risk and maintain a safe, healthy environment for their athletes.

Use your own words to compose your assignments and cite your sources properly. Failure to do so will result in academic penalty (failing the course) and possible academic suspension.
