

EDU 331: Educational Technology FALL 2020

Instructor: Dr. Kele Anyanwu

Section 1: Tuesday (11.00 – 12.15 pm)
Thursday (11.00 - 12.15 pm)

Section 2: Tuesday (2.00 – 3.15 pm)
Thursday (2.00 - 3.15 pm)

Section 3: Tuesday (3.30 – 4.45 pm)
Thursday (3.30 - 4.45 pm)

Virtual office hrs.: By appointment only

Email: kanyanwu@uwsp.edu

COURSE DESCRIPTION

Due to the COVID-19 Pandemic, this Educational Technology was transformed to a course that could be offered 100% in virtual mode for the first time in a regular semester period. We shall however, endeavor to augment what we miss in regular in-classroom meeting by our resolve to engage in active participation and collaboration during our Zoom sessions.

Educational Technology (EDU 331) course is designed to give us, as learners and future teachers fundamental hands-on experience on integrating technologies proven to have desirable pedagogical outcomes into a PK-12 curriculum.

Throughout the semester, students in this course will be encouraged to look at educational technology from two perspectives; firstly, as tools to enhance learning in the classroom with desirable outcomes on the part of students and secondly, as administrative tools to help teachers become more productive and efficient in the classroom.

Course activities will take place during video conferencing sessions using Zoom platform. Activities such as computer labs sessions will also take place online with exception of few instances for example where a student is in campus and requires a face to face demonstration of a tool. In such situation, the student must make a prior appointment with instructor and negotiate time suitable to both so that a computer

lab could be reserved. A variety of activities are planned that requires each student play active role in making the class interesting, energetic, and fun. The atmosphere in the class will be conducive to learning and responsibility for creating that atmosphere is shared by the students and instructors.

My role as your instructor is one of facilitator. We are all learners together, and students will have numerous opportunities to be moderators, facilitators and “knowledge sharers” (Rieber, 1997)

PREREQUISITES

As this is an intermediate level educational technology course, there is an implied assumption that students enrolled in this course are proficient with the Windows operating system, have basic knowledge of Microsoft Office Suite applications and can perform basic file operations (i.e. copying, deleting, saving, etc.). *Where this is not the case, students should contact the instructor to receive support enabling them to derive maximum benefit from the course.* Additionally, students are expected to have Internet skills, including emailing, and web browsing/searching.

COURSE ALIGNMENT WITH TECHNOLOGY STANDARDS

Professional standards describe the knowledge, skills and dispositions that should be developed for successful participation within a profession. There are several sets of professional standards that served as guides for development of this course. Students are encouraged to refer to these standards and incorporate them into their assignments as they form framework of the assignments and activities.

1. [International Society for Technology in Education \(ISTE\)](#)
2. [Instructional Technology Literacy for Educators in Wisconsin](#)

COURSE GOALS AND OBJECTIVES

Upon successful completion of the course, students will be able to:

1. Develop and demonstrate competence and confidence using contemporary technology tools from a Common Core standards-based perspective.
2. Identify and evaluate developmentally, standards appropriate technology resources that includes Interactive computing technologies, Mobile computing platforms, e-Publishing, Cloud computing and associated technologies.
3. Analyze and reflect on contemporary issues involving the relationship between PK-12 learners and technology; thereby linking new information with existing understanding in creative, collaborative, and critical thinking and meaningful ways.
4. Articulate how pupils differ in their approaches to learning; the reality of digital divide and barriers that impede technology mediated learning. As a result, students and can infuse educational technology into instruction to meet the diverse needs of pupils, including those with disabilities, exceptionalities, and socio-economic impediments.

This course, like all courses in the School of Education prepares pre-service teachers for challenges in the diverse settings they will face in the classrooms when they go into the field.

- At the end of the course, each student will demonstrate understanding that technology can be effectively integrated into PK-12 learning environments to provide meaningful learning and achievement with desirable outcomes on the part of the student.
- Each student will demonstrate that effectively using technology to promote meaningful learning in PK-12 learning environment requires a commitment to lifelong learning.
- In addition, each student will plan, lead, and participate in activities that encourage and promote equitable, ethical, and legal use of computer and web-based technology.

ATTENDANCE:

- Attendance at all class online ZOOM meetings
 - Absences *will be* reflected in the final grade assigned. Points are taken off if a student is absent from class more than **two times** in the semester without **PRIOR** permission. It is not enough to email me in the morning that you will be absent from class that day.
 - Absences that result from emergencies require supporting, written documentation produced by a professional office (i.e. doctor's excuse/funeral notice, etc.).
 - Absences known in advance must be reported prior to the date of absence or they will be considered unexcused. In addition to reporting the anticipated absence you must include *specific details* as to how and when you will make up for missed discussion/assignments.
- Be attentive, respectful, and active participant during class sessions and in online discussions
- Be ready with evidence of all communication(s) with the instructor and assignments submitted for the duration of this course if discrepancies occur.

ASSIGNMENT ACCEPTANCE POLICY:

- All class assignments are due as indicated on the ***Assignment and Due Dates schedule*** in the course outline.
- All assignments are expected to meet the standards of college-level work. Assignments that are illegible or incomplete will be returned to the student ungraded. The student will be expected to redo the assignment.
- While I encourage people to study with others to understand the material, all submitted work must be your own and each student will be expected to turn in an assignment.
- Taking material from the internet or from printed books/journals, etc. *without appropriately citing the source* or turning in the same paper (this includes multiple electronic versions of the same paper) as another student are both considered plagiarism and will be handled according to UWSP guidelines.
- Late assignments will not be tolerated, any assignment not submitted on the due date will be assumed not done and will receive no grade. Enough time will be made available during lab sessions to complete your work. All assignments will be submitted via Canvas. **Don't submit assignments via email, if you do, they will not be graded.** Specific criteria or rubrics for each assignment will be provided in Google drive folder and/or D2L and discussed when each assignment is introduced.

- Unfortunately, technology failures happen, but they will not be accepted as a reason for missed assignment due dates. Do not leave anything to the last minute! If you have trouble completing or posting an assignment, contact me **BEFORE** the assignment is due for assistance before the due date, not after.

EVALUATION (See individual assignment rubrics in Canvas)

Cognitive research shows that students learn and retain material best when they use “distributed learning,” in other words, when they regularly study small chunks of material over an extended period. One of the best ways for students to find out about their progress in the course is for them to have an opportunity to practice material via frequent short practical assignments and several formal assessments of their knowledge and skills. Frequent feedback provided by the instructor should help students tailor their learning efforts and goals to master course materials.

EVALUATION METHODS

Assessment for this course emphasizes student progress and performance demonstrations of knowledge and skills learned in the course. Final grades are calculated from the total accumulated points of learning products and participation. The grades will be assigned based on a 100-point scale:

95-100	A	82-85	B-	66-69	D+
91-94	A-	78-81	C+	62-65	D
87-90	B+	74- 77	C	60-63	D-
83-86	B	70-73	C-	59 and below	F

UWSP Community Bill of Rights and Responsibilities

UW-Stevens Point values a safe, honest, respectful, and inviting learning environment. In order to ensure that each student has the opportunity to succeed, we have developed a set of expectations for all students and instructors. This set of expectations is known as the Rights and Responsibilities document, and it is intended to help establish a positive living and learning environment at UWSP. Click here for more information: <http://www.uwsp.edu/stuaffairs/Pages/rightsandresponsibilities.aspx>

Academic integrity is central to the mission of higher education in general and UWSP in particular. Academic dishonesty (cheating, plagiarism, etc.) is taken very seriously. Don't do it! The minimum penalty for a violation of academic integrity is a failure (zero) for the assignment. For more information, see the UWSP “Student Academic Standards and Disciplinary Procedures” section of the Rights and Responsibilities document, Chapter 14, which can be accessed here:

<http://www.uwsp.edu/stuaffairs/Documents/RightsRespons/SRR-2010/rightsChap14.pdf>

Americans with Disabilities Act (ADA) Statement

The Americans with Disabilities Act (ADA) is a federal law requiring educational institutions to provide reasonable accommodations for students with disabilities. For more information about UWSP's policies, check here: [Division of Student Affairs: Rights and Responsibilities](#)

If you have a disability and require classroom and/or exam accommodations, please register with the Disability and Assistive Technology Center and then contact me at the beginning of the course. I am happy to help in any way that I can. For more information, please visit the Disability and Assistive Technology Center, located on the 6th floor of the Learning Resource Center (the Library). You can also find more information here: <http://www4.uwsp.edu/special/disability>

REQUIRED TEXTBOOKS

1. Collins, A., & Halverson, R. (2018). Rethinking education in the age of technology: The digital revolution and schooling in America. New York: Teachers College press. / Second Edition
2. Magna (2018) Disruptive Classroom Technologies / First Edition

SUGGESTED READING MATERIALS

Information on suggested reading materials will be provided in class and will include Journal articles.

REFERENCES

References resources are detailed in Canvas and where necessary may be made available online.

EDU 331 COURSE OUTLINE (FALL 2020)

Instructor: Dr. Kele Anyanwu

Dates	Week (s)	Module	Description (what will be covered)
09/02 – 09/05	1	Overview	<ul style="list-style-type: none"> ✓ Course Introduction ✓ TAS ✓ What is technology & educational technology?
09/07 – 09/12	1	Learning theories & Frameworks	<ul style="list-style-type: none"> ✓ Multiple Intelligence theory ✓ Constructivism / Constructionism ✓ Cognitive Theory of Multimedia Learning ✓ ISTE / Wisconsin
09/14 – 10/10	4	Cloud Computing (CC) in Education	<ul style="list-style-type: none"> ✓ What is cloud computing? ✓ Google Sites ✓ Data Visualization with Google & Microsoft Tools ✓ Video Conferencing Tools ✓ Interactive Story Mapping
10/12 -10/24	2	Technology Integration/ IWB in Instruction	<ul style="list-style-type: none"> ✓ Technology use & integration understanding ✓ TI Frameworks/Models ✓ TPACK/ SAMR/ T3 ✓ Interactive White Boards – Smart notebook App ✓ SMART LAB / SMART BLOCKS ✓
10/26 – 11/14	3	Modern Classroom Knowledge Skills	<ul style="list-style-type: none"> ✓ Circuitry ✓ Coding ✓ Robotics ✓ Makerspace

THANKSGIVING – 11/25 – 11/29

11/16 – 12/05	2	Immersive Technologies For Learning	
			✓ Augmented Reality (AR)
			✓ Virtual Reality (VR)
			✓ Mixed Reality (MR)
12/07 - 11	COURSE & FINAL SEMESTER EXAM REVIEW		

Signature Assignments & Due Dates

#	ASSIGNMENTS	POINTS	DUE DATES
1.	Technology Assessment Survey	2	09/05
2.	Google Sites e-Portfolio & Class Website	15	12/11
3.	Video Conferencing Tools Presentation (Group)	10	10/03
4.	Coding for Ubiquitous Learning (1)	5	10/17
5.	Data Collection & Visualization	10	10/24
6.	Interactive Story Mapping	10	10/31
7.	Interactive White Board	10	11/07
8.	Coding for Ubiquitous Learning (2)	10	12/05
9.	Immersive Technologies Project	8	12/18
10.	Discussions	10	10/10, 10,31,12/12
11.	Final Semester Exam	10	12/14 - 18
	Total	100	

All assignments are due by 11.30 pm on stated due dates (Read late assignment policy in the syllabus).

DISCUSSION TOPICS – FALL 2020

1. What does the term “disruptive innovation” mean to you? How applicable is it to your experience as a pre-service teacher? (3 points)
 - a. *Disruptive Classroom Technologies....*
 - b. *Rethinking Education.....*

Due date – 10/10/2020 (23:30)

2. How did the American school system evolve? Do you see parallels with the way technology has evolved or integrated in the learning process over the years? (3 points)
 - a. *Disruptive Classroom Technologies....*
 - b. *Rethinking Education.....*

Due date – 10/31/2020 (23:30)

3. Education in 21st Century is often described as a life-long adventure; explain your understanding of the statement and how technology is empowering the adventure? (4 points)
 - a. *Disruptive Classroom Technologies....*
 - b. *Rethinking Education.....*

Due date – 12/12/2020 (23:30)

You will post your discussion in the Discussion box before or on the due date and must respond to another’s posting. Read about three or more posting to get other students perspectives on the topic for discussion in class.
