Course Description

- This course provides the psychological bases of educational procedures and practices; educational implications of characteristics of physical and mental growth, emotional behavior, learning, individual differences, and human relations.
- The purpose of this course is to educate and prepare you, as a professional, to work with diverse populations of students within the school environment by providing research based approaches for current best practices in education. This course will provide classroom applications of research-validated concepts to assist educators in student success.
- In this course, you will work in professional learning communities (PLCs) to develop understanding of physical, social, emotional, and cognitive development; cultural, social, emotional and intellectual differences; learning and problem-solving processes; testing/measurement and how they relate to best classroom practices. Additionally, you will create a behavioral modification which will allow you to utilize the concepts of theory into practice and critically analyze case studies and how they relate to educational research and classroom design for student learning outcomes.

Course Learning Outcomes

1. Students will identify and investigate behavioral issues utilizing educational psychology theories.
2. Students will systemically apply theories of educational psychology to classroom practices and learner behavior.
3. Students will combine or synthesize basic principles of child and adolescent development from multiple sources.

Evaluation/Course Requirements*

Learning Requirements	<u>Points</u>
<u>Selected Response Tests</u> (Normative based)	
Quests 12@15 points each	180
<u>Assignments and Exercises</u> (Criterion based)	
Reading Guides (14 x 5 points)	70
Behavior-Modification	10
Science Daily Posts (10 x 3 points)	30
Self-Reflection Posts ([15 x 2 points]	30
Action Research Project	30
Culminating Final (Normative Based)	50
Total Points	400

Assignments and Exercises (Criterion based)

Attendance Assignment (Reading Guides): You will be given reading guides for each chapter. These reading guides will be collected at the beginning of each class period that starts a new chapter. For example, at the start of the fourth week of class we will begin covering the chapter on cultural and socioeconomic diversity. The day of class we start the chapter is when the reading guide is due. The due dates are on this syllabus. Attend each class. If you must miss a class, communication with the professor is needed prior to the class period (with the exception of emergencies). Three absences may result in a reduced grade. Make arrangements with a peer to obtain class notes from the day missed. Students who are absent find that they do not get as much out of the course as other students.

Purpose: The purpose of this assignment is to make your reading more purposeful and to ensure you are prepared to discuss the topics covered.

Connected outcome(s):

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations.
- Understand why more empirical data is needed to supply answers to the questions.
- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs.

Behavior-Modification: The techniques you learn in this assignment are common for classroom management and specifically, exceptional learner's needs. You will have the opportunity to learn how to modify the behavior of a family member, friend, or self.

Purpose: The purpose of the opportunity is to create a skill set that will allow you to change unwanted behaviors in students and yourself.

Connected outcome(s):

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations. **10 points**

SciDaily Posts: Being an effective educator or community member requires continual engagement with the literature. Some weeks will require you to post a summary of a research article. Your post should include:

- the text of the article or title or a link to the article and summary. (Please note, if the link is missing or does not work, the entire assignment will receive a zero because I cannot verify if the post reflects your work is a copy and paste of the original work).
- summary w/Purpose and Findings. **2 points**
- respond to another person's post **1 point**

Purpose: This assignment will foster skills for reviewing literature related to the teaching profession.

Connected outcome(s):

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations.
- Understand why more empirical data is needed to supply answers to the questions.
- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs.

Self-Reflection Posts: You will occasionally post personal examples of various course content and concepts.

Purpose: The purpose of the opportunity is to develop a deeper connection with the course by developing self-reflective skills that are critical for teacher-researchers.

Connected outcome(s):

- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs. **2 points**

Action Research Project: You will have the opportunity to work with a local school district to address a problem, issues or area of interest through action research. This project will be service learning in nature and theoretical in actual application. The project will culminate in a brief presentation to the class.

Purpose: The purpose of the opportunity is to practice action research. Action research is the primary method teacher-researchers use to enhance their practice and student achievement.

Connected outcome(s): 30 points

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations.
- Understand why more empirical data is needed to supply answers to the questions.
- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs.

Culminating Final:

Purpose: The purpose of the opportunity is to practice reflection skills. Additionally, data supports the use of such assessments because it enhances retention of course material.

Connected outcome(s):

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations.
- Understand why more empirical data is needed to supply answers to the questions.
- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs.

Assessments: Selected Response Tests (Normative based)

Students will take twelve (12) Quests during the course. The Quests will be on the readings and class discussions. The Quests will be 15 multiple choice questions. Quests will occur immediately after completing the chapter. You will take the Quests during class. You will be asked to reflect on your Quest by discussing your answers in your PLC.

Purpose: These summative assessments are meant to enhance knowledge and understanding of course content.

Connected outcome (s):

- Theoretical perspectives that specify which observations are relevant; theories to explain the phenomena of interest; and theories that can generate predictions that can be tested by new observations.
- Understand why more empirical data is needed to supply answers to the questions.
- Contextual and stakeholders influences on the educational process.
- Assessment of the forces of discrimination, racism, on faculty, students, curriculum, instruction, and assessment in school programs.

Required Course Materials

Required Text

Snowman J. & McCown R. (2015). Psychology Applied to Teaching. (14 ed). Cengage

Technology Guidelines

You may want to indicate if this course requires any technology beyond what is available on campus. You may also want to indicate a cell phone or mobile device policy for your class (sample below).

Cell phone usage: Research supports that having visual access to a cell phone diminishes our ability to learn. Checking social media, texts, emails, and messages is unprofessional and disrespectful to our class community. Please turn off your phone during class; I will do so as well. If I notice that you are using your phone during class I may ask you to share what you are researching or ask you to put it away. Thank you for following these guidelines as they help create a positive learning community.

Online Statement: This course requires posting of work online that is viewable only by your classmates. None of the work submitted online will be shared publicly. Some assignments require account creation for online programs. Your academic records (grades, student IDs, personal identification information) will not be shared by the instructor of this course. Confidentiality of student work is imperative, so you should not share the work of your peers publicly without their permission. By participating in these assignments you are giving consent to sharing of your work with others in this class and you recognize there is a small risk of your work being shared online beyond the purposes of this course. If you elect to not participate in these online assignments due to confidentiality concerns then an alternate assignment will be offered to you.

Inclusivity Statement

(Adopted from Lynn Hernandez, Brown University)

It is my intent that students from all diverse backgrounds and perspectives be well-served by this course, that students' learning needs be addressed both in and out of class, and that the diversity that the students bring to this class be viewed as a resource, strength and benefit. It is my intent to present materials and activities that are respectful of diversity: gender identity, sexuality, disability, age, socioeconomic status, ethnicity, race, nationality, religion, and culture. Your suggestions are encouraged and appreciated. Please let me know ways to improve the effectiveness of the course for you personally, or for other students or student groups.

If you have experienced a bias incident (an act of conduct, speech, or expression to which a bias motive is evident as a contributing factor regardless of whether the act is criminal) at UWSP, you have the right to report it using this [link](#). You may also contact the Dean of Students office directly at dos@uwsp.edu.

Confidentiality

Learning requires risk-taking and sharing ideas. Please keep your classmates' ideas and experiences confidential outside the classroom unless permission has been granted to share them.

Grading Scale

94 – 100% = A	77 – 79% = C+	
90 – 93% = A-	74 – 76% = C	< 63% = F
87 – 89% = B+	70 – 73% = C-	
84 – 86% = B	67 – 69% = D+	
80 – 83% = B-	64 – 66% = D	

Communicating with your Instructor

Email is the quickest way to reach me at: kgylund@uwsp.edu

Call my office at any time (xxx-xxx-xxxx). Leave a voicemail if I do not answer.

Skype Videoconference is also available by request.

Communicate Clearly

Remember some faculty receive as many as 100 emails per day. Yours should be clear, concise, and professional so that your issues can be responded to effectively. Include the entire thread of an ongoing email conversation so that your instructor can recall the history of your issue without searching for other emails you have sent. Sign off with your first and last name. I will not open attachments without messages or messages that are illegible.

Office hours

I am available without an appointment on the days/times listed on the first page of this syllabus. Individual meetings can be arranged through an email request, phone call, or conversation directly before or after class. I do not hold normal office hours during the following weeks: (Thanksgiving week, Spring Break, Summer Break, and finals weeks.)

Attendance

Attending class will likely be the single most important factor in determining your performance and grade in the course, so plan to attend every class. In most class meetings you will have at least one project, exercise, test, and/or discussion that will impact your grade, and your class discussions will count toward participation. The relationship between attendance and achievement in education has been extensively documented in peer-reviewed research. ***I am not able to re-teach the material to you in the event that you are absent, but you can ask a classmate to share notes. Any exceptions to the attendance policy should be confirmed in writing.***

Please refer to the “Absences due to Military Service” and “Religious Beliefs Accommodation” below. Additionally, below are attendance guidelines as outlined by the [UWSP registrar](#):

Attend all your classes regularly. We do not have a system of permitted "cuts."

If you decide to drop a class, please do so using myPoint or visit the Enrollment Services Center. Changes in class enrollment will impact your tuition and fee balance, financial aid award and veterans educational benefit.

During the first eight days of the regular 16 week term, your instructor will take attendance. If you are not in attendance, you may be dropped from the class. You are responsible for dropping any of your enrolled classes.

- If you must be absent during the term, tell your instructor prior to the class you will miss. If you cannot reach your instructor(s) in an emergency, contact the Dean of Students Office at 715-346-2611 or DOS@uwsp.edu.
- If you are dropped from a class due to non-attendance, you may only be reinstated to the class section using the class add process. Reinstatement to the same section or course is not

guaranteed. Your instructors will explain their specific attendance policies to be followed at the beginning of each course.

- If you take part in an off-campus trip by an authorized university group such as an athletic team, musical or dramatic organization, or a class, make appropriate arrangements in advance with the instructor of each class you will miss. If you are absent from classes because of emergencies, off-campus trips, illness, or the like, your instructors will give you a reasonable amount of help in making up the work you have missed.
- If you enroll in a course and cannot begin attending until after classes have already started, you must first get permission from the department offering the course. Otherwise, you may be required to drop the course.
- If you do not make satisfactory arrangements with your instructors regarding excessive absences, you may be dismissed. If you are dismissed from a class, you will receive an F in that course. If you are dismissed from the University, you will receive an F in all enrolled courses.

Late Work

- Late work will NOT be accepted without an email, prior to the due date, asking for an extension. The only way I will accept late work is in an emergency with a Doctor's or Police note. Please don't ask after the fact or you will be told to see the syllabus.

Emergency Procedures

- In the event of a **medical emergency call 9-1-1** or use campus phone **[list location in room or nearest your classroom]**. Offer assistance if trained and willing to do so. Guide emergency responders to victim.
- In the event of a **tornado warning, proceed to the lowest level interior room** without window exposure at **[list primary location for shelter closest to classroom,]**. See www.uwsp.edu/rmgt/Pages/em/procedures/other/floor-plans.aspx for floor plans showing severe weather shelters on campus. Avoid wide-span structures (gyms, pools or large classrooms).
- In the event of a **fire alarm, evacuate the building** in a calm manner. Meet at **[state logical location to meet 200 yards away from building]**. Notify instructor or emergency response personnel of any missing individuals.
- **Active Shooter – RUN. HIDE. FIGHT.** If trapped, hide, lock doors, turn off lights, spread out and remain quiet. Call 9-1-1 when it is safe to do so. Follow instructions of emergency responders.

See UW-Stevens Point Emergency Procedures at www.uwsp.edu/rmgt/Pages/em/procedures for details on all emergency response at UW-Stevens Point.”

Absences due to Military Service

As stated in the UWSP Catalog, you will not be penalized for class absence due to unavoidable or legitimate required military obligations, or medical appointments at a VA facility, [not to exceed two \(2\) weeks](#) unless special permission is granted by the instructor. You are responsible for notifying faculty members of such circumstances as far in advance as possible and for providing documentation to the Office of the Dean of Students to verify the reason for the absence. The faculty member is responsible to provide reasonable accommodations or opportunities to make up exams or other course assignments that have an impact on the course grade. For absences due to being deployed for active duty, please refer to the [Military Call-Up Instructions for Students](#).

Religious Beliefs Accommodation

It is UW System policy ([UWS 22](#)) to reasonably accommodate your sincerely held religious beliefs with respect to all examinations and other academic requirements.

You will be permitted to make up an exam or other academic requirement at another time or by an alternative method, without any prejudicial effect, if:

- There is a scheduling conflict between your sincerely held religious beliefs and taking the exam or meeting the academic requirements; and
- You have notified your instructor within the first three weeks of the beginning of classes (first week of summer or interim courses) of the specific days or dates that you will request relief from an examination or academic requirement.
- Your instructor will accept the sincerity of your religious beliefs at face value and keep your request confidential.
- Your instructor will schedule a make-up exam or requirement before or after the regularly scheduled exam or requirement.
- You may file any complaints regarding compliance with this policy in the Equity and Affirmative Action Office.

Equal Access for Students with Disabilities*

UW-Stevens Point will modify academic program requirements as necessary to ensure that they do not discriminate against qualified applicants or students with disabilities. The modifications should not affect the substance of educational programs or compromise academic standards; nor should they intrude upon academic freedom. Examinations or other procedures used for evaluating students' academic achievements may be adapted. The results of such evaluation must demonstrate the student's achievement in the academic activity, rather than describe his/her disability.

If modifications are required due to a disability, please inform the instructor and contact the [Disability and Assistive Technology Center](#) to complete an Accommodations Request form. Phone: 346-3365 or Room 609 Albertson Hall.

UWSP Service Desk

The Office of Information Technology (IT) provides a Service Desk to assist students with connecting to the Campus Network, virus and spyware removal, file recovery, equipment loan, and computer repair. You can contact the Service Desk via email at techhelp@uwsp.edu or at (715) 346-4357 (HELP) or visit this [link for more information](#).

Care Team

The University of Wisconsin-Stevens Point is committed to the safety and success of all students. The Office of the Dean of Students supports the campus community by reaching out and providing resources in areas where a student may be struggling or experiencing barriers to their success. Faculty and staff are asked to be proactive, supportive, and involved in facilitating the success of our students through early detection, reporting, and intervention. As your instructor, I may contact the Office of the Dean of Students if I sense you are in need of additional support which individually I may not be able to provide. You may also share a concern if you or another member of our campus community needs support, is distressed, or exhibits concerning behavior that is interfering with the academic or personal success or the safety of others, by reporting [here](#).

Academic Honesty

Academic Integrity is an expectation of each UW-Stevens Point student. Campus community members are responsible for fostering and upholding an environment in which student learning is fair, just, and honest. Through your studies as a student, it is essential to exhibit the highest level of personal honesty and respect for the intellectual property of others. Academic misconduct is unacceptable. It compromises and disrespects the integrity of our university and those who study here. To maintain academic integrity, a student must only claim work which is the authentic work solely of their own, providing correct citations and credit to others as needed. Cheating, fabrication, plagiarism, unauthorized collaboration, and/or helping others commit these acts are examples of academic misconduct, which can result in disciplinary action. Failure to understand what constitutes academic misconduct does not exempt responsibility from engaging in it.

UWSP 14.03 Academic misconduct subject to disciplinary action.

- (1) Academic misconduct is an act in which a student:
 - (a) Seeks to claim credit for the work or efforts of another without authorization or citation;
 - (b) Uses unauthorized materials or fabricated data in any academic exercise;
 - (c) Forges or falsifies academic documents or records;
 - (d) Intentionally impedes or damages the academic work of others;
 - (e) Engages in conduct aimed at making false representation of a student's academic performance; or

(f) Assists other students in any of these acts.

(2) Examples of academic misconduct include, but are not limited to:

- Cheating on an examination
- Collaborating with others in work to be presented, contrary to the stated rules of the course
- Submitting a paper or assignment as one's own work when a part or all of the paper or assignment is the work of another
- Submitting a paper or assignment that contains ideas or research of others without appropriately identifying the sources of those ideas
- Stealing examinations or course materials
- Submitting, if contrary to the rules of a course, work previously presented in another course
- Tampering with the laboratory experiment or computer program of another student
- Knowingly and intentionally assisting another student in any of the above, including assistance in an arrangement whereby any work, classroom performance, examination or other activity is submitted or performed by a person other than the student under whose name the work is submitted or performed.

Students suspected of academic misconduct will be asked to meet with the instructor to discuss the concerns. If academic misconduct is evident, procedures for determining disciplinary sanctions will be followed as outlined in the [University System Administrative Code, Chapter 14](#).

Other Campus Policies

FERPA

The [Family Educational Rights and Privacy Act](#) (FERPA) provides students with a right to protect, review, and correct their student records. Staff of the university with a clear *educational need to know* may also have to access to certain student records. Exceptions to the law include parental notification in cases of alcohol or drug use, and in case of a health or safety concern. FERPA also permits a school to disclose personally identifiable information from a student's education records, without consent, to another school in which the student seeks or intends to enroll.

Title IX

UW-Stevens Point is committed to fostering a safe, productive learning environment. Title IX and institutional policy prohibit discrimination on the basis of sex, which includes harassment, domestic and dating violence, sexual assault, and stalking. In the event that you choose to disclose information about having survived sexual violence, including harassment, rape, sexual assault, dating violence, domestic violence, or stalking, and specify that this violence occurred while a student at UWSP, federal and state laws mandate that I, as your instructor, notify the Title IX Coordinator/Office of the Dean of Students.

Please see the information on the [Dean of Students webpage](#) for information on making confidential reports of misconduct or interpersonal violence, as well as campus and community resources available to students. For more information see the [Title IX page](#).

Clery Act

The US Department of Education requires universities to disclose and publish campus crime statistics, security information, and fire safety information annually. Statistics for the three previous calendar years and policy statements are released on or before October 1st in our [Annual Security Report](#). Another requirement of the Clery Act, is that the campus community must be given timely warnings of ongoing safety threats and immediate/emergency notifications. For more information about when and how these notices will be sent out, please see our [Jeanne Clery Act](#) page.

Drug Free Schools and Communities Act

The Drug Free Schools and Communities Act (DFSCA) requires institutions of higher education to establish policies that address unlawful possession, use, or distribution of alcohol and illicit drugs. The DFSCA also requires the establishment of a drug and alcohol prevention program. The Center for Prevention lists information about alcohol and drugs, their effects, and the legal consequences if found in possession of these substances. [Center for Prevention – DFSCA](#)

Copyright infringement

This is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act. Each year students violate these laws and campus policies, putting themselves at risk of federal prosecution. For more information about what to expect if you are caught, or to take preventive measures to keep your computing device clean, visit our [copyright page](#).

Course Schedule*

(Subject to Change)

Week	Class Date	Topics, Activities, and Labs	Assignments Due Before Class on Thursday
1	January 23/24	Intro: Syllabus Cultural Sharing PLC Groups PLC Norms	*Syllabus Questions *PLC Group Names & Members
2	January 30/31	Chp. 1: Applying Psychology to Teaching Example of Sci-Daily Self-Reflection: How do good teachers strike a balance between the art and the science of teaching? Are they born with the right personality? Are they the products of good teacher-education programs? If both factors play a role, which is more important? Reading Guide	Read Chp. 1 & RG SR
3	February 6/7	Chp. 2: Theories Self-Reflection Post: Which theory do you like and why? SciDaily = Summary w/Purpose & Finding(s) & Response to one other. Erickson Piaget Vygotsky Bronfenbrenner (Slavin, pg. 42)	Read Chp. 2 & RG SR SD
4	February 13/14	Chp. 3: Age X biopsychosocial Reading Guide SciDaily = Summary w/Purpose & Finding(s) & Response to one other. Social Physiological Emotional Self-Reflection Cognitive	Read Chp. 3 & RG SD: Post and Response
5	February 20/21	Chp. 4: Understanding Student Differences Reading Guide Self-Reflection Post (Choose Option A or B): (A)What gender differences have you observed as a student and how as it impacted you? (B)What kind of learner are you and why? SciDaily = Pick a topic from the list below and write a Summary w/Purpose & Finding(s) & Response to one other. (A)Reflective and Impulsive (B)Field Dependent and Field Independent	Read Chp. 4 & RG SR SD: Post & Respond

		(C)Mental Self-Governance (D)Impact of Awareness	
6	February 27/28	<p>Chp. 5: Addressing Culture and Socioeconomic Diversity</p> <p>Reading Guide</p> <p>Self-Reflection Post (Choose Option A, B, or C below)</p> <p>(A)What ethnicity are you and how does it influence your life?</p> <p>(B)What was/is your social class growing up and how does/has it influenced your life?</p> <p>(C)Do you think a second language should be required in public schools and why or why not?</p> <p>SciDaily = Pick a topic from the list below and write a Summary w/Purpose & Finding(s) & Response to one other.</p> <p>(A)Ethnicity (B)Social Class (C)Language</p>	<p>Read Chp. 5 & RG</p> <p>SR</p> <p>SD: Post & Respond</p>
7	March 5/6	<p>Chp 6: Accommodating Student Variability</p> <p>Reading Guide</p> <p>Self-Reflection Post</p> <p>Why is it important to understand “ability grouping”?</p> <p>SciDaily = Pick a topic from the list below and write a Summary w/Purpose & Finding(s) & Response to one other.</p> <p>(A)Intellectual Disabilities (B)Emotional Disabilities (C)Learning Disabilities (D)Gifted & Talented</p>	<p>Read Chp. 6 & Guide</p> <p>SR</p> <p>SD: Post & Respond</p>
8	March 12/13	<p>Chp. 7: Educational Applications of Operant Conditioning Principles</p> <p>Reading Guide</p> <p>Self-Reflection Post</p> <p>What is a behavior in your life that you would like to modify and why?</p> <p>Behavior Modification Assignment Due Week 11</p>	<p>Read Chp. 7 & Guide</p> <p>SR</p> <p>Begin Behavior Mod for Documentation Log</p>
9	March 26/27	<p>Chp. 8: Information Processing Theory</p> <p>Reading Guide</p> <p>Self-Reflection Post</p> <p>Give a personal example of how you learned something using the Information Processing theory?</p> <p>SciDaily (Learning Theory) Pick a topic from the list below and write a Summary w/Purpose & Finding(s) & Response to one other.</p> <p>(A)Info-Processing (B)Social Cognitive (C)Constructivist</p>	<p>Read Chp. 8 & Guide</p> <p>SR</p> <p>SD: Post & Respond</p>

10	April 2/3	Chp. 9: Social Cognitive Theory Reading Guide Self-Reflection Post Give a personal example of how you used the Social Cognitive theory to learn something.	Read Chp. 9 & Guide SR SD: Post & Respond
11	April 9/10	Chp. 10: Constructivist Learning Theory Reading Guide Self-Reflection Post Give a personal example of how you used the Constructivist Learning theory to learn something?	Read Ch. 10 & Guide SR Behavior Modification Due
12	April 16/17	Chp. 11: Motivation & Self Perception Reading Guide Behavioral Modification Assignment Self-Reflection Post What motivates you more as a student, intrinsic or extrinsic motivators and why? SciDaily = Pick a topic from the list below and write a Summary w/Purpose & Finding(s) & Response to one other. (A) Intrinsic Motivation & Learning (B) Extrinsic Motivation & Learning	Read Chp. 11 & Guide SR SD
13	April 23/24	Chp. 14: Assessment Reading Guide Self-Reflection Post	Read Chp. 14 & Guide SR SD
14	April 30/1	Chp. 15: Standardized Testing Reading Guide Self-Reflection Post SciDaily = Find a research article on standardized testing and write a Summary w/Purpose & Finding(s) & Response to one other.	Read Chp. 15 & Guide SR SD
15	May 7/8	Chp. 16: Inquiry Skills to Improve Learning Reading Guide Self-Reflection Post What type(s) of assessment do you prefer and why?	Read Chp. 16 & Guide SR
16	Final Week TBA	Final
