Course Description

This independent study course is set within an online professional learning community. This course is in tandem with the **EDUC 748 Supported Literacy Practicum** course. The content is geared toward classroom teachers, reading specialists and special educators who are responsible for instruction, curriculum development and educational leadership. This course specifically consists of materials and techniques related to understanding of literacy assessment, best practices, research, and instructional strategies to support children’s literacy development. From this understanding, practice of effective literacy instruction is then transferred to other environments.

The information on the EDUC 748 practicum is described later in the syllabus and in the welcome letter. This practicum is set up by the participant. The D2L environment is designed to support the practicum experience and final Case Study Project. Course content and instructor and student contact for this course meets the Carnegie Credit requirement of 45 hours.

Required Textbook

Gillett, J. W., Temple, C., Temple, C., Crawford, A. *Understanding Reading Problems*. Boston: Pearson. **Any edition*

Informal Reading Inventory and other assessments for Case Study Project (many of which are located in the above text, online, or/and already purchased for current classroom)

Recommended Teacher Resources

Course participants will share resources they’ve investigated (in relation to textbook reading and D2L resources) and used with their practicum student and/or other students. Space to share resources in the Discussion Area of D2L. The instructor will ask that you recommend several teacher resources.

Initial Session with Instructor

Each participant will set up an initial face-to-face or phone session, with the instructor, prior to the start of this course. During this session, an introduction to the course, format, timeline, and requirements will be discussed. The instructor may visit participants during their practicum and/or set up a time for a final class meeting. This will be discussed during the initial session. This course is designed to accommodate participant’s current position, interests, and busy summer schedules.

InTASC Standards

While all 10 InTASC Standards are developed and applied within the context of this course, the tasks in this course particularly focus on the first three standards—Learner Development, Learning Differences, and Learning Environment. Also emphasized: Assessment, Planning for Instruction, and Instructional Strategies. See the D2L site for a full explanation of these standards.

Learning Outcomes

As a result of their experiences in EDUC 747, participants will:

- Cultivate a perspective and understanding related to the reading process and issues related to reading
- Develop an understanding of informal measures of literacy assessment for internal audiences—related to word recognition, comprehension, spelling, writing, and interest.
- Develop an understanding of formal measures of literacy assessment for external audiences
- Develop an understanding of instructional strategies and methods for instructional planning and responsively working with students in literacy development
- Examine current professional literature in the area of reading and literacy instruction
- Demonstrate the ability to examine student’s reading ability from a comprehensive perspective, and to suggest and implement appropriate plans for instruction

Course Requirements 1-5 & Format

1. This 6 week course is active Tuesday, May 30th – Friday, July 7th.

- **Introduction Week 1:** Participants will meet with the instructor to introduce themselves to the other participants in the discussion area of D2L, discuss requirements, get a start on reading the course text, peruse D2L content, and lay out a plan of study.
 - If you have not received the course textbook by week 1, the first four chapters are scanned in the Content Area of D2L.
- **Weeks 2-5:** Participants will engage in concentrated reading of course material and purposeful selection of materials in an online environment (i.e., Explore Best Practice).
 - Weeks 2-5 consist of 8 modules. Participants will complete 2 modules per week.
 - IF something hinders your movement through the modules, reading, and/or assignments please notify the instructor immediately!
- **Final Week 6:** Participants will finalize their plan of study, course tasks, and the Case Study Project (EDUC 748). All coursework is to be completed by the last day of class, **Friday, July 7th**.
 - If for some reason a participant is habitually late in responding to peer’s posts, instructor direction and emails, and assignments are of poor quality

and/or late, points will be deducted from the overall participant's grade at instructor's discretion.

2. **Writer's Notebook.** Participants track their learning from *Understanding Reading Problems: Assessment and Instruction* to support activity in this course in a personal teacher diary. Your developing understanding is applied in your practicum (Case Study Project). During weeks 2-5, participants drop their Writer's Notebook **entries** into the **Dropbox Area** by Sunday of each week.
 - **Textbook Edition:** Participants may purchase an older edition. However, in doing so it is the participant's responsibility to align their Writer's Notebook to the chapters. To get a head start on reading, the first 4 chapters (8th ed.) are scanned in D2L introduction area. Go to Pearson's website to view the exact chapters in the 8th edition at <https://www.pearsonhighered.com/product/Gillet-Understanding-Reading-Problems-Assessment-and-Instruction-8th-Edition/9780132617499.html>. The chapters assigned for this course follow the 8th edition.
 - **Writer Notebook Specific Requirements:** Entries include a date, chapter title, and notes that highlight your learning and interests. Each module contains Writer Notebook questions and prompts. These are **NOT** to be answered but instead provided to *stir* thinking and considerations. The instructor is the only one who will read entries. The length of entries will be discussed during **week 1**.
 - **Notes support the Case Study Project:** The notes you keep support the planning, instruction, and assessment of the student you chose to work with. Use your notebook to support the writing for the Case Study Project.
3. **Explore Best Practice.** Participants are prompted to explore best practice related to their textbook and module readings.
 - Post reactions & ideas that you would like to share in the D2L Discussion Area. Postings are brief 1 paragraph summaries of your interests and ideas readings and resources within the modules of Week 2-5. **Post 1 paragraph, by Sunday of each week.**
4. **Collaborative Task. Respond to ONE of your peer's "Explore Best Practice" postings (see #3) prior to week 5.**
 - Choose a peer's posting that you are most interested in and relates to your interests, teaching experiences, and/or case study student. Communicate with this peer. Together, decide what you want to explore further.
 - Share these literacy resources and teaching videos/other media in the D2L Discussion Area. Write a brief commentary that highlights why these resources exemplify best practice. This collaborative task is due **by week 5**.
5. **The Case Study Project.** The case study is an analysis of a student's reading ability and instructional methods that are documented in a 5-8 page professional paper. APA style formatting is required (<https://owl.english.purdue.edu/owl/section/2/10/>).
 - **Sample Case Study Projects.** With the instructor, during week 1, layout and specific requirements will be discussed via these examples. Case studies most

often include an introduction, overview of student's literacy abilities, assessment tools used/analysis, goals, lessons, and summary.

- **Case Study Project Draft is due Friday, June 30th**, for instructor and peer feedback. Post this in the D2L Area. Peers respond and provide feedback to several papers and/or to those that have not yet received feedback. The instructor will provide feedback to all case study drafts. **Final Case Study Project is due Friday, July 7th.**
- **Complete 5 or more informal assessments.** Depending on the age, grade, and needs of your student, the following are various assessments appropriate for your case study project. Assessments that you complete with your student are included in your case study project.

Interest Inventory

Running Record (with readability analysis of passage)
