

Instructor Information

Professor: Dr. Kirsten Stor

Office: SCI D355

Phone: (715)346-4607

Office Hours: MW 4:00-4:50, T*RF 10:00-10:50.

*Tuesday's office hour will be held in the lobby of the dorm, Suites@201 Reserve.

Email: Kirsten.Stor@uwsp.edu

Course Information

Title: Applied Calculus

Number/time: Math 111 Section 02, 11:00-11:50 MTRF, SCI A207

Text: *Applied Calculus For the Managerial, Life, and Social Sciences*, 10th edition by Tan

Content: Chapters 1-6 in the text. Topics include limits, rules of derivatives, curve sketching, optimization, basic antiderivatives, area between curves, integration by u-substitution.

Grading

Your grade in this course will be determined by the following weighting scheme:

Online Homework:	15%
Quizzes:	35%
Three Midterms:	30%
Final Exam:	20%

Your letter grade will be assigned by the following pattern:

87-89	B+
83-86	B
80-82	B- etc.

Online Homework: There will be frequent homework through WebAssign. You will need to purchase a code to access this (the bookstore carries these). To register yourself for the course, go to <https://www.webassign.net/login.html> and click on the "I have a class key" button to the right. You will be asked to enter your "class key" (which tells WebAssign you are signing up for Math 111 section 2 at UWSP). **Your class key is uwsp 9359 0693.** Once you are signed up for the course, you will need to use your code (which you got from the bookstore) as a proof of payment for the program.

Quizzes: We will have a short quiz (15-20 minutes) at the end of class each Tuesday over recent material. I will drop your two lowest quiz scores.

Midterms: There will be three in-class midterms. These will be on 10/4, 11/1 and 12/6 and will cover whatever we have done since the previous midterm.

Final Exam: The final will be cumulative.

The final exam is scheduled for 2:45-4:45, Monday, Dec 19th

Class Policies

Calculators: You should have a calculator. I don't require a graphing calculator, although they are handy! I am most familiar with TI-83 and TI-84 calculators.

Missing Class:

I do not give make-up quizzes. I will drop your two lowest quiz scores to account for any absences out of your control (illnesses, emergencies etc.)

If you miss a midterm, I will allow you to make it up (before I hand the tests back to the class), but I will not offer full credit for this regardless of your reason.

Extra Help

This course is a Supplemental Instruction (SI) course. With this designation, comes a course SI leader, Alex Holmes, who will be sitting in on class many days! Alex will be holding SI sessions, at which you can practice working problems. This is a *great* resource for you! I highly encourage you to take full advantage by attending the SI sessions! Times/Locations TBA.

You can also go the MathRoom (Science A113A) 9:00am-4:00pm, 7:00-9:00pm M-R. This room is staffed mostly by math majors who are there just to answer your questions! It can be a nice place to work on homework, since you have people right there who can help you if you get stuck on anything.

There is free drop-in tutoring in DUC 205, M-R, 6-9pm. You can also go to LRC 018 to sign up for a private tutor, but this may not be free depending on your eligibility.

Don't Cheat

The university has developed a set of expectations for the conduct of all students and instructors. This set of expectations is known as the *Rights and Responsibilities* document, and it is intended to help establish a positive living and learning environment at UWSP. It is located here: <http://www.uwsp.edu/dos/Documents/CommunityRights.pdf>. For more information see the UWSP "Student Academic Standards and Disciplinary Procedures" section of the *Rights and Responsibilities* document, Chapter 14.

Special Accommodations

The Americans with Disabilities Act (ADA) is a federal law requiring educational institutions to provide reasonable accommodations for students with disabilities. If you have a disability and require classroom and/or exam accommodations, please register with the Disability and Assistive Technology Center (on the 6th floor of LRC) and then contact me at the beginning of the course. Without documentation I cannot give you accommodations. For more information, refer to their webpage here: <http://www.uwsp.edu/disability/>
