I. Participation/Discussions

Professional behavior is expected toward your classmates and instructor. It is highly unusual that there is a problem of this nature. Slurs against a person's gender, race, religion, sexual orientation, political affiliation or essentially attacks against a person are not tolerated in this class or on this campus (and in professional settings). This requirement does not restrict your freedom of speech associated with expressing your opinion. Learning how to express opposing opinions without becoming emotive or insulting is an excellent skill to acquire.

If disruptive behavior is identified in the online class environment or via email and it is not corrected, then it may be followed by removal of your extra credit and/or a deduction of 10 percent of your final grade. Extreme measures can result in a discussion with the Dean of Students.

II. Grade Calculations

Grade Distribution: (It is rare, but I may need to make changes due to modifications in assignments, but these changes are discussed with students before they are applied.)
