Assignments and Assessments

Exams:

3 exams will be given throughout the semester to assess your understanding of course content. It is imperative that you do all of the readings in your textbook, as not all of the information you will be tested on is provided in the lectures. All exams will consist of 50 questions (true/false and multiple choice) worth 2 points each. They will become accessible on Canvas at the beginning of their respective week, and due on the Sundays at 11:59pm of those weeks.

Honorlock will be used to proctor the exams. **You are responsible to make sure your computer is adequate.** With Honorlock, you will be recorded (video + Audio + computer screen) while taking the exam. No other information will be recorded. Beside Honorlock personnel, your professor will be the only one accessible to your recordings.

Papers:

You are required to write four papers which will help you reflect on course-relevant topics and broaden your understanding of personality psychology. They will be approximately 2 pages in length and follow the APA style (1-inch margin, double-spaced, and in 12-point Time New Roman font). Your name and assignment title must only be on the cover page (which is not counted as the body). Please proofread before submitting! Points will be lost for spelling and grammar issues.

Activities/discussion:

Through out the semester, 12 activities/discussion will be assigned. All of them will be posted on Canvas. Please check the course schedule at the end of the syllabus on their assigned dates.

Note: All assignments will be completed on Canvas. You will have at least 1 week to complete the assignments.

Safety is our number one concern!

We will not have any face-to-face interaction, but please read the following carefully if you're ever on campus during the spring semester.

Face Coverings:

At all UW-Stevens Point campus locations, the wearing of face coverings is **mandatory** in all buildings, including classrooms, laboratories, studios, and other instructional spaces. Any student with a condition that impacts their use of a face covering should contact the [Disability and Assistive Technology Center](#) to discuss accommodations in classes. Please note that unless everyone is wearing a face covering, in-person classes cannot take place. This is university policy and not up to the discretion of individual instructors. Failure to adhere to this requirement could result in formal withdrawal from the course.

Other Requirements:

- Please monitor your own health each day using [this screening tool](#). If you are not feeling well or believe you have been exposed to COVID-19, do not come to class; email your instructor and contact Student Health Service (715-346-4646).
- As with any type of absence, students are expected to communicate their need to be absent and complete the course requirements as outlined in the syllabus.
- Maintain a minimum of 6 feet of physical distance from others whenever possible.
- Do not congregate in groups before or after class; stagger your arrival and departure from the classroom, lab, or meeting room.
- Wash your hands or use appropriate hand sanitizer regularly and avoid touching your face.
- Please maintain these same healthy practices outside the classroom.
