## Student Learning Outcomes

SLO are the set of skills that students will acquire at the end of the course. They are typically divided, from more specific to more general, into foundational, mediating, and ultimate outcomes.

Foundational outcomes: reading, writing, listening, and speaking.

Mediating outcomes: ability to work in short-term groups and (potentially) long-term groups as well. Ability to speak in public, both individually and in groups.

Ultimate outcomes: Good basic understanding of the Spanish verbal system (present and preterite), including major irregularities. Good pronunciation of the language. Good understanding of basic linguistic and cultural interactions. Good basic vocabulary range.

### SLO Disclaimer

- (1) Students may vary in their competency levels of these outcomes, and
- (2) they can expect to achieve these outcomes *only if* they honor all course policies, attend classes regularly, complete all assigned work in good faith and on time, and meet all other course expectations of them as students.
