REQUIRED TEXT: Suppes, M.A. & Wells, C.C. (2018). *The Social Work Experience: A Case-Based Introduction to Social Work and Social Welfare, 7th Edition*. New York: Pearson.

COURSE DESCRIPTION

This class is designed to help students learn about social work and social welfare and explore career options in social work. The history of social work is explored and used to place current issues such as poverty, racism, and sexism in the context of the society within which they exist. Social work programs and approaches that address these and other client issues are highlighted, as is the importance of research-informed practice. Areas of social work practice such as child welfare, schools, criminal justice, health, mental health, alcohol and drug abuse, aging, and developmental disabilities are examined. Social work theories, knowledge, skills, values, and approaches are investigated in a general sense and as applied to various areas of social work practice. Students are asked to evaluate their own and society's values in the areas studied.

COURSE OBJECTIVES

At the completion of the course, the student should:

1. Demonstrate an understanding of social work as a profession within the context of the broader social welfare system.
2. Demonstrate familiarity with the history, mission, theory base, values, and ethics of the social work profession.
3. Demonstrate familiarity with social welfare concepts frequently used in the discussion of social welfare institutions.
4. Demonstrate beginning understanding of concepts related to generalist social work practice by examining the function of social workers as generalist practitioners in terms of knowledge base, roles, practice skills, and research-informed practice.
5. Demonstrate familiarity with the social work intervention process/planned change process.
6. Demonstrate knowledge of different fields of practice and variety of settings within the social work profession.
7. Identify personal values and examine them in relation to societal and professional values.
8. Explain the commitment of social work to human diversity, social justice, and populations-at-risk.
9. Demonstrate skill in use of the library indexes and databases and internet to locate peer-reviewed articles pertaining to social work practice.
10. Demonstrate skill in the use of APA format.

COUNCIL ON SOCIAL WORK EDUCATION CORE COMPETENCIES

The Council on Social Work Education (CSWE) identifies core competencies that students must demonstrate and apply throughout their education and that social work programs must infuse into their curricula. This course is designed to provide exposure to these competencies and serve as a foundation for the further development that will take place should a student be admitted into the social work program.

1. Demonstrate Ethical and Professional Behavior.
2. Engage Diversity and Difference in Practice.
3. Advance Human Rights and Social, Economic, and Environmental Justice.

4. Engage in Practice-Informed Research and Research-Informed Practice.
5. Engage in Policy Practice.
6. Engage with Individuals, Families, Groups, Organizations, and Communities.
7. Assess Individuals, Families, Groups, Organizations, and Communities.
8. Intervene with Individuals, Families, Groups, Organizations, and Communities.
9. Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities.

CLASS FORMAT

Classes include lecture, discussion, videos, individual and group exercises, and guest speakers.

COURSE REQUIREMENTS

1. Guest Speaker Reactions	35 points (<i>7 guest speakers at 5 points each</i>)
2. Regular Class Participation and Attendance	60 points (<i>30 class periods at 2 points each</i>)
3. Professional Development Assignments	80 points (<i>8 assignments at 10 points each</i>)
4. Research-Informed Practice Assignments	50 points (<i>5 assignments at 10 points each</i>)
5. Quizzes	100 points (<i>4 quizzes at 25 points each</i>)

- ◆ Expectations for guest speaker reactions, professional development assignments, and research-informed practice assignments can be found in Canvas.
- ◆ Quizzes will include multiple choice, true- false, and short answer questions. Students will take quizzes independently (not during the class session) on Canvas. Quizzes will be open book and open notebook, and students will be given 45 minutes to complete each quiz (unless they have an accommodation for additional time through DATC). Quizzes will only reflect material from class sessions, guest speakers, readings, and handouts. *Information from Professional Development Assignments are not included.*

GROUND RULES FOR CLASS PARTICIPATION

- ◆ Students are expected to attend all class sessions. Students should not schedule employment or other activities/responsibilities during class time. If a student is unable to attend a particular class session for health/medical or other appropriate reasons (to be determined by instructor), they should inform the instructor in a timely fashion to develop a plan for staying caught up with class.
- ◆ Students should read all assigned readings before attending the class for which they are assigned.
- ◆ Students are expected to actively participate during the class sessions by raising questions, responding to discussion prompts, and by maintaining attentiveness.
- ◆ Class sessions will take place via Zoom. Students are expected to behave professionally during live Zoom class sessions. This means muting and unmuting when appropriate, having camera on, raising questions and responding to questions verbally and in chat, dressing appropriately, and being attentive (no sleeping, cell phone use, or engaging in other activities). Basically, students should behave as they would in a face-to-face class.
- ◆ This class aims to develop knowledge, skills, and values that are consistent with social work. Sexism, racism, classism, ableism, and heterosexism exist. We all have misinformation, and sometimes prejudices, about groups of people. A goal of this class is to learn accurate information that will help us change prejudice and discrimination--our own and that of others. To do this, we need to practice changing what we say after we have learned that we have misinformation. We need to practice not blaming people for their positions in life. We need to look for accurate information about all people and actively work against spreading myths and stereotypes that exist about people. We need to share information about ourselves. Sometimes we need to take risks such as asking for information and expressing opinions. No one is expected to be perfect in this effort. Everyone is expected to try. My goal is to make this classroom a safe place to practice gathering and using new information. I hope that students will help achieve this goal.

Academic Integrity

Academic Integrity is an expectation of each UW-Stevens Point student; work integrity is also an expectation within the social work practice community. Campus community members are responsible for fostering and upholding an environment in which student learning is fair, just, and honest. Through your studies as a UW-Stevens Point student, it is essential to exhibit the highest level of personal honesty and respect for the intellectual property of others. Academic misconduct is unacceptable. It compromises and disrespects the integrity of our university and those who study here. To maintain academic integrity, a student must only claim work which is the authentic work solely of their own, providing correct citations and credit to others as needed. Cheating, fabrication, plagiarism, unauthorized collaboration, and/or helping others commit these acts are examples of academic misconduct, which can result in disciplinary action. Failure to understand what constitutes academic misconduct does not exempt responsibility from engaging in it. Please see this document for guidance: <https://www.uwsp.edu/dos/Documents/AcademicIntegrityBrochure.pdf>
