

The Spring 2013 Teaching
and Learning Series
Knowing Our Students: Empowering Success

***Student Cheating – are you ready for when it
happens in YOUR class?***

April 26 • DUC - Room 374 • 1:00 - 2:30 pm

Presented by

**Terese Barta - Biology faculty; and Mary Mielke, Teaching & Learning
Resource Network**

What will you do when you catch a student cheating? Your “gut-reaction” versus the reality of steps you are allowed to take under UW-System Policy and Procedures may be quite different. This presentation will introduce you to forms of student cheating, both face-to-face and online, as well as strategies you can put in place to discourage it. UW-System Policy and Procedures on Academic Dishonesty will be broken down into digestible steps to walk participants through being better prepared for when (not if) it happens.

Questions for discussion will include:

- Do faculty and students see cheating the same way?
- What strategies/tools are used that help make cheating easier?
- What strategies/tools are there to discourage and detect cheating?
- What do you do when you catch a student cheating and what steps should you take to ensure that your actions are in line with university policies?
