Subject: Campus Announcements - Budget Web page created

Dear Students, Faculty and Staff:

Thank you for attending the first two universitywide forums about Governor Walker's proposed budget. Your participation and ideas are much appreciated as we work together to address a potential cut that would have significant and serious implications for our university.

One suggestion coming from the open forums was to create a Web page with factual information about the UW System budget for the next biennium. [That Web page has been created.](#)

Another suggestion was to create talking points about the UW System budget. The new Web page contains talking points from UW System about the budget and the UW Authority, and the universitywide communications from me are also posted and may be used as talking points.

We will post new items and updates multiple times in the coming days and weeks, so you may wish to bookmark the page and visit it regularly.

Please keep the suggestions coming. There soon will be an online form for suggestions on the budget Web page. You are also encouraged to talk with your dean or vice chancellor. We need our collective passion and intelligence to work through these difficult times.

Bernie L. Patterson,
Chancellor
