

Speakers List

for

Shoreland Issues

*For Lake Organizations & Other Conservation Groups
May 2001*

Compiled by:

Lynn Markham, Land Use and Shoreland Educator
The Land Use Education Center
Cooperative Extension and College of Natural Resources
University of Wisconsin - Stevens Point

Speakers List for Shoreland Issues – 2001

Below is a list of shoreland issues and knowledgeable people who may be able to speak to your organization. Please note that some of the speakers are statewide while others cover a limited geographical area. The contact list at the back of this packet contains the title, geographical area, phone number and e-mail address for each speaker.

Shoreland issues included in this list:

- 1) How Shoreland Development Affects Water Quality
- 2) How Shoreland Development Affects Fish, Wildlife and Their Habitats
- 3) How Shoreland Development Affects Natural Shoreline Aesthetics
- 4) Shoreland Ordinances: Management Strategies and Tools
- 5) Shoreland Incentive Programs
- 6) Shoreland Educational Programs
- 7) County Water Classification Projects
- 8) How Citizens Can Influence Local Land Use Decisions
- 9) Lake and River Grant Opportunities
- 10) Shoreland Restoration
- 11) Recreational Use Conflicts: Boating, Other Surface Water Use and Piers
- 12) Formation of Lake Associations and Districts
- 13) Septic Systems – Water Quality Impacts & Regulations
- 14) Basic Lake Ecology and Management
- 15) Introduction to Limnology: Why All Lakes Are Not Alike and How the Lake Classification Process Accounts for These Differences
- 16) Wisconsin's Public Trust Doctrine
- 17) Managing Your Shoreline and Shallows to Protect Water Quality and Wildlife Habitat
- 18) Wetlands
- 19) Water Levels
- 20) Shoreland Zoning and Your Forest Land

Note

Please contact the speakers at least one month ahead of time to check on their availability. Speakers can be more effective if you provide them with some background about your group, their interests and current issues. Speakers may require a certain audience size in order to make the best use of their time. It will be your responsibility to advertise the event and arrange the logistics including audio-visual equipment.

Speakers for each shoreland issue:

An asterisk () after a speaker's name indicates that there is a description of their presentation included in the contact list following their name.*

1) **How Shoreland Development Affects Water Quality**

Statewide speakers: Mike Dresen, Tamara Dudiak, John Hagengruber, Bob Korth, Lynn Markham*, Carrol Schaal, Donna Sefton, Jo Seiser*, Susan Tesarik*, and Carmen Wagner.

Local speakers: Jim Cahow, Matthew Davis*, John Haack, Bill Klase, Darren Lochner, Gretchen Messer, Catherine Neiswender, Gregory Sevener, Buzz Sorge, Jeffrey Thornton, Suzanne Wade, Jennifer Wudi and DNR Water Management Specialists.

2) **How Shoreland Development Affects Fish, Wildlife and Their Habitats**

Statewide speakers: Mike Dresen, Tamara Dudiak, John Hagengruber, Bob Korth, Lynn Markham*, Carrol Schaal, Donna Sefton, Jo Seiser*, Susan Tesarik*, and Carmen Wagner.

Local speakers: Jim Cahow, Matthew Davis*, John Haack, Bill Klase, Darren Lochner, Gretchen Messer, Buzz Sorge, Suzanne Wade, Jennifer Wudi and DNR Water Management Specialists.

3) **How Shoreland Development Affects Natural Shoreline Aesthetics**

Statewide speakers: John Hagengruber, Bob Korth, Donna Sefton, Susan Tesarik* and Carmen Wagner.

Local speakers: John Haack, Bill Klase, Darren Lochner, Gretchen Messer, Catherine Neiswender, Charmaine Robaidek, Gregory Sevener, Buzz Sorge, Jeffrey Thornton, Jennifer Wudi, County Zoning Administrators and DNR Water Management Specialists.

4) **Shoreland Ordinances: Management Strategies and Tools**

Statewide speakers: Michael Dresen, Tamara Dudiak, John Hagengruber, Bob Korth, Lynn Markham*, Susan Tesarik* and Carmen Wagner.

Local speakers: Catherine Neiswender, Jeffrey Thornton, Jennifer Wudi, County Zoning Administrators and DNR Water Management Specialists.

5) **Shoreland Incentive Programs**

Statewide speakers: Michael Dresen, Nancy Hill* and Carroll Schaal.

Local speakers: John Haack and Buzz Sorge.

6) **Shoreland Educational Programs**

Statewide speakers: Michael Dresen, Tamara Dudiak, Bob Korth, and Carroll Schaal.

Local speakers: Matthew Davis*, John Haack, Karl Kostrosky, Darren Lochner, Catherine Neiswender and Jennifer Wudi.

7) **County Water Classification Projects**

Statewide speakers: Michael Dresen, Bob Korth, Lynn Markham*, Carroll Schaal, Donna Sefton and Susan Tesarik*.

Local speakers: Karl Kostrosky, Buzz Sorge, Jeffrey Thornton, Jennifer Wudi and County Zoning Administrators.

8) **How Citizens Can Influence Local Land Use Decisions**

Statewide speakers: Michael Dresen, John Hagengruber, Lynn Markham*, Carroll Schaal, Donna Sefton and Susan Tesarik*.

Local speakers: Buzz Sorge, Jeffrey Thornton, County Zoning Administrators and DNR Water Management Specialists.

9) **Lake and River Grant Opportunities**

Statewide speakers: Michael Dresen, Tamara Dudiak, Bob Korth and Carroll Schaal.

Local speakers: Gregory Sevener, Buzz Sorge, Jeffrey Thornton, Jennifer Wudi and County Zoning Administrators.

10) Shoreland Restoration

Statewide speakers: Mike Dresen, Carrol Schaal, Susan Tesarik*, and Carmen Wagner.

Local speakers: Matthew Davis*, John Haack, Bill Klase, Karl Kostrosky, Darren Lochner, Gretchen Messer, Catherine Neiswender, Buzz Sorge, Suzanne Wade, Jennifer Wudi, County Zoning Administrators and DNR Water Management Specialists.

11) Recreational Use Conflicts: Boating, Surface Water Use and Piers

Statewide speakers: Michael Dresen, Tamara Dudiak* and Bob Korth.

Local speaker: Jeffrey Thornton.

12) Formation of Lake Associations and Districts

Statewide speakers: Mike Dresen, Tamara Dudiak*, Bob Korth, Donna Sefton and Carmen Wagner.

Local speakers: Buzz Sorge, Jeffrey Thornton and Jennifer Wudi.

13) Septic Systems – Water Quality Impacts and Regulations

Local speakers: Gregory Sevener, Buzz Sorge and CeCe Tesky*.

14) Basic Lake Ecology and Management

Statewide speaker: Donna Sefton.

Local speakers: Buzz Sorge and Jennifer Wudi.

15) Introduction to Limnology: Why All Lakes Are Not Alike and How the Lake Classification Process Accounts for These Differences

Statewide speakers: Lynn Markham and Susan Tesarik.

Local speakers: Charmaine Robaidek, Buzz Sorge and Jennifer Wudi.

16) Wisconsin's Public Trust Doctrine

Statewide speaker: Tamara Dudiak*.

17) Managing Your Shoreline and Shallows to Protect Water Quality and Wildlife Habitat

Local speakers: DNR Water Management Specialists.

18) Wetlands

Local speakers: DNR Water Management Specialists.

19) Water Levels

Local speakers: DNR Water Management Specialists.

Contact List

This section contains

- General roles of speakers in shoreland management
- Statewide speakers
- Local speakers
- County Zoning Administrators
- DNR Water Management Specialists

General Roles of Speakers in Shoreland Management:

UW-Extension Specialists – Interpret University research to help people make informed decisions for their communities. Share experiences from other communities with similar challenges.

UW-Extension Basin Educators - Provide leadership for science-based educational programs regarding land and water resources.

Department of Natural Resources (DNR) Lake Management Coordinators – Administer lake and river grants, water quality monitoring, water resource planning and management activities, and educational programs.

DNR Water Management Specialists – Administer state water regulation permit programs related to activities in the water through public education and enforcement. Provide comment regarding county shoreland ordinances and related decisions.

Zoning Administrators – Administer county shoreland, comprehensive, sanitary and related ordinances through permit programs, public education and enforcement.

Wisconsin Association of Lakes (WAL) – Preserve and protect lakes, their watersheds and ecosystems, promote public policy, advance education and promote local leadership.

Regional Planning Commissions – Assist with mapping, water classification and shoreland ordinance drafting.

Statewide Speakers:

Michael Dresen

Director, Land Use Education Center
Stevens Point office
715-346-2278
mdresen@uwsp.edu

Tamara Dudiak

Lakes Specialist with UW-Extension
Stevens Point & Madison offices
715-346-4744
tdudiak@uwsp.edu

Description of issue 11:

Recreational use management - The potential to manage recreational use through pier and surface use ordinances is explored through a discussion of permissible types of regulations (in view of relevant case law and statutory language) and specific community examples.

Description of issue 12:

Lake districts and lake associations - Gain power through organization! This talk will focus on the different organizational forms that are currently operating across the state of Wisconsin, the method of formation, the advantages and disadvantages of each, and the potential each group offers in terms of stewardship and resource protection.

Description of issue 16:

This talk will discuss the origins and evolution of the Public Trust Doctrine and its current application in the State of Wisconsin.

John Hagengruber

Shoreland/Floodplain Planner with Department of Natural Resources

Madison office

608-267-7571

hagenj@dnr.state.wi.us

Description of issue 20:

Overview of shoreland management program, forestry BMP's, and examples of how counties are incorporating flexibility into their forestry-related regulations.

Nancy Hill

President of the Green Lake Association

Coordinator of the Revitalization of Shoreland Vegetation Project

920-745-3076

nhillgla@vbe.com

Description of issue 5:

The Revitalization of Shoreland Vegetation Project (RSVP) is dedicated to preserving/restoring the native vegetation on the shores of Big Green Lake, where waterfront properties are quite developed. To accomplish this goal, state, county, and local government agencies, as well as schools, businesses, volunteer organizations, and private individuals, effectively joined forces. Today, RSVP conducts workshops for property owners, realtors, and landscapers to teach sound shoreland management, hosts annual public tours of shoreland restoration demonstration sites on both public and private properties, provides cost sharing for restoration projects, certifies businesses in shoreland restoration, and offers the services of a Shoreland Restoration Specialist to riparians and businesses.

Bob Korth

Lake Specialist with UW-Extension

Stevens Point office, specializes in lake groups

715-346-2192

bkorth@uwsp.edu

Lynn Markham

Shoreland and Land Use Educator with UW-Extension

Stevens Point office

715-346-3879

lmarkham@uwsp.edu

Description for issues 1 and 2:

The number of shoreland dwellings has more than doubled on lakes north of Highway 29 from 1965 to 1995 (Northern Initiatives study). This presentation explains how this development has affected the water quality and wildlife habitat of our lakes and streams and provides examples of what communities are doing to protect their lakes for future generations.

Description for issue 4:

Nearly half of Wisconsin's counties have recently updated their shoreland ordinances to address current challenges and reflect the results of new research. This presentation can be tailored to provide you with options for updating your ordinance to solve local problems

Description for issue 7:

Why have nearly half of the counties in Wisconsin chosen to tailor the management of their lakes and streams rather than using the historical 'one-size-fits-all' approach? This discussion will describe how the process has worked in numerous counties, how citizens have been involved, and the resulting public policies.

Description for issue 8:

Have you ever seen a local project that you were concerned about but not known what to do? This presentation focuses on how and when citizens can become effective participants in local land use decisions.

Carroll Schaal

Lake Partnership Team Leader with Wisconsin Department of Natural Resources

Madison office

608-261-6423

schaac@dnr.state.wi.us

Donna Sefton

Executive Director of Wisconsin Association of Lakes

Madison office

800-542-5253

dsefton@execpc.com

Description for issue 8:

The Wisconsin Lakes Partnership (Wisconsin Association of Lakes, DNR, and UW-Extension) has developed a new 10-year strategy for protecting and restoring Wisconsin lakes. This presentation focuses on how citizens can help carry out the strategy, "Protecting in Partnership: The Legacy of Wisconsin Lakes" by becoming a Friend of Wisconsin Lakes and working with the Wisconsin Association of Lakes in its stewardship to protect the environmental and economic sustainability of our lakes.

Jo Seiser

Water Resources Consultant with Wisconsin Association of Lakes

Stevens Point office

715-342-8020

wal@coredcs.com

Description for issues 1 and 2:

Margin of Error is a slide program showing the importance of the shallow water and land interface of Wisconsin lakes. This ribbon around lakes is important habitat to plants and animals that live all or some of their life cycle in the water. The presentation by UWEX has examples of local research showing lake changes from development.

Susan Tesarik

Classification Outreach Coordinator with Wisconsin Association of Lakes

Madison office

800-542-5253

stesarik@execpc.com

Description for issues 1, 2 and 3:

Rampant waterfront development can change the very character of our lakes - from wild and scenic gems to just another piece of suburbia. However, communities have an important opportunity to make wise decisions about the density, pattern, and types of development and recreational use that is accepted at our waters today in order to maintain the character and value of our lakes and streams for tomorrow's children. This presentation covers some of the studies that show impacts of development and ways that we can save the lakes.

Description for issue 4:

Water Classification provides counties an opportunity to make wise decisions about the density, pattern, and types of development that is accepted at our waters in order to maintain the character and value of our lakes and streams for future generations. So, how'd they do that? This process can be presented as six shoreland management tools.

Description for issue 7:

Susan can provide a discussion of why counties are choosing to classify their lakes and streams rather than using the historical 'one-size-fits-all' approach for shoreland management, how the process has worked in numerous counties (including how citizens have been involved), and shoreland ordinances which have been implemented to protect water quality, wildlife habitat and natural aesthetics.

Description for issue 10:

Waterfront property owners can help their lakes greatly by restoring their shorelines with natural vegetation. The result can be beautiful, adding value to your property, as well as beneficial, adding wildlife habitat and pollutant buffering to your lake. This presentation covers some of the basics: why shoreland restoration is helpful to your lake, restoration options, and how to get started.

Carmen Wagner

Shoreland Zoning Specialist with the Wisconsin Department of Natural Resources

Madison office

608-266-0061

wagnec@mail01.dnr.state.wi.us

Local Speakers:

Jim Cahow

DNR Water Resources Management Specialist, Lakeshore Basin
Sturgeon Bay office, limited to Door, Kewaunee, and Manitowoc Counties
920-746-2886
cahowj@dnr.state.wi.us

Matthew Davis

UW-Extension, Basin Educator for Natural Resources - Upper Chippewa River Basin
Ladysmith office, regional speaker
715-532-6322

matthew.davis@ces.uwex.edu

Description for issues 1 and 2:

A short presentation based on relevant research findings and other materials that show how the cumulative impacts of development affect water quality without being readily apparent. Things that homeowners and local government can do to minimize these impacts will be highlighted.

Description for issue 6:

A short presentation highlighting programs that other groups have adopted to get the message out and who's out there to help them.

Description for issue 10:

The basics of how to do a successful restoration project, including an educational component.

John Haack

UW-Extension Basin Educator for St. Croix Basin
Spooner office, prefers to stay in St. Croix Basin
715-635-7406
john.haack@ces.uwex.edu

Bill Klase

UWEX Basin Educator for Headwaters Basin
Rhineland office, regional speaker
715-365-2658
william.klase@ces.uwex.edu

Karl Kostrosky

Bayfield County Zoning Administrator
Bayfield office, limited to northwest Wisconsin
715-373-6138
zoning@bayfieldcounty.org

Darren Lochner

UW-Extension Basin Educator for Lower Chippewa Basin
Eau Claire office, regional speaker
715-836-5513
darren.lochner@ces.uwex.edu

Gretchen Messer

UW-Extension Basin Educator for Milwaukee & Sheboygan Rivers
Milwaukee office, regional speaker
414-290-2434
gretchen.messer@ces.uwex.edu

Catherine Neiswender

UW-Extension Basin Educator for Fox Wolf Basin
Oshkosh office, limited to Fox Wolf Basin
920-232-1990
catherine.neiswender@ces.uwex.edu

Gregory Sevenser

Wastewater Specialist with the Department of Natural Resources
Peshtigo office, limited mainly to Marquette County
715-582-5013
seveng@dnr.state.wi.us

Buzz Sorge

Lake Management Coordinator with Department of Natural Resources
Eau Claire office, regional speaker
715-839-3794
sorgep@dnr.state.wi.us

CeCe Tesky

Rusk County Zoning Administrator
Ladysmith office, limited mainly to Rusk County
715-532-2156
ctesky@centurytel.net

Description for issue 13:

Focus on water quality issues (ground and surface), diseases, types of systems, types of failure and need for maintenance.

Jeffrey Thornton

Principal Planner (Environment) with Southeastern
Wisconsin Regional Planning Commission (SEWRPC)
Milwaukee office, prefers to stay in Milwaukee-metro area or Kenosha, Racine, Ozaukee,
Washington, Waukesha, and Walworth counties
262-547-6721 ext. 237
jthornton@sewrpc.org

Suzanne Wade

Rock River Basin Educator with UW-Extension
Jefferson office, limited to Rock River Basin
920-674-8972
suzanne.wade@ces.uwex.edu

Jennifer Wudi

Lake Management Coordinator with Wisconsin Department of Natural Resources
Rhineland office, limited to Florence, Forest, Iron, Langlade, Lincoln Oneida, Price, Taylor and Vilas
counties
715-365-8937
wudij@mail01.dnr.state.wi.us

County Zoning Administrators

The following list of zoning administrators and their staff are responsible for compliance with shoreland zoning and septic system ordinances in their counties. Although these zoning administrators have not volunteered to be speakers, community education is key to ordinance compliance. They are often the single best source of information about ordinances, appeals, and proposed and current development projects.

County	Zoning Administrator	Phone	E-mail
Adams	Phil McLaughlin	(608) 339-4222	
Ashland	Lawrence Hildebrandt	(715) 682-7014	aczoning@win.bright.net
Barron	Paul Flottum	(715) 537-6375
