

Full-Time Environmental Science Educator- Early Childhood and Summer Programs Coordinator

Responsibilities:

- Teach environmental science to preK-12 groups in the forests and waters of Wisconsin's Northwoods
- Work with education team to write and edit curriculum and assess student learning
- Create and teach engaging and age-appropriate curriculum for KinderWild Camp (KWC) and summer youth programs.

Qualifications:

- Bachelor's degree in environmental sciences, biology, education, or related field preferred, though relevant experience may be considered in lieu of education.
- 1-3 years experience in environmental education, general education, or natural sciences
- 1-3 years experience working with youth ages 3-10
- Current valid driver's license.
- Good organizational skills and self-motivated.
- Ability to walk 5 miles per day with a 10lb pack over rough terrain, and lift 25 lbs. overhead
- Commercial Drivers' License (CDL) and First Aid certification to be obtained within 6 months of employment

Benefits:

- Starting pay rate at \$15/hr
- Paid vacation and sick time
- Ability to contribute to a 403(b) retirement account
- Low-rent, shared (private bedroom) on-site housing available
- All meals provided when working with a group
- Flexible schedule
- Paid professional development including travel to regional conferences
- Live and work in the beautiful Northwoods of Wisconsin!
