Agreement and Preparation Instructions for Donor Lab and Morgue Tour

Please read and discuss with your parent/guardian/student prior to attending the donor lab and morgue tours.

- Students are to conduct themselves in a respectful and professional manner. Any inappropriate behavior will result in their excuse from the tour.
- If you have a history of fainting, or any condition that can cause fainting, please notify your counselor or the tour staff.
- If you or someone else becomes lightheaded during the tour, this may be an indication of fainting. Please review the symptoms; lightheadedness, dizziness, nausea, blurred vision, or feeling flushed. If you experience any of these symptoms speak up immediately.
- Participation is not mandatory. If a student is uncomfortable or does not wish to participate, they should inform their counselor or tour staff.
- Please wear closed-toe shoes the day of the tours, 6/12/19 and 6/14/19. You will not be allowed in the lab if you are wearing inappropriate shoes (sandals).
- The donor lab and morgue are kept quite cool. Please dress in layers (bring a jacket).
- Photos of any kind are not allowed. Please keep your cell phone in your pocket during the tours.

I have read this letter and agree to the above conditions.
