The 20th WebTMA Conference was held this year in Tulsa, OK, from April 10-14th. Tina Kramer, Business Manager, UWSP, again presented. Her presentation, "The Journey of Acceptance and Training New Users," was a big success for many that represented backgrounds from Education, Government, Health Care and Businesses from all over the country and the world. It was a record setting year with over 600 in attendance and was held at the Hyatt Regency in downtown Tulsa, OK.

The Conference features a broad range of activities to sharpen your skills with WebTMA products. Those that attend have the opportunity to increase your knowledge, productivity, and value of the WebTMA application within your organization. The Conference offers a variety of breakout sessions, hands-on workshops, and roundtable discussions. Most importantly, the Conference always provides those attending with the opportunity to network, collaborate, and exchange ideas with TMA staff and peers.

This year UWSP Facility Services sent Eva Hathaway, Travis Olsen, Darcy Loomis and Tina Kramer to the conference.

Memorial Day 2017 in the United States of America

Memorial Day is observed on the last Monday of May. It was formerly known as Decoration Day and commemorates all men and women who have died in military service for the United States. Many people visit cemeteries and memorials on Memorial Day and it is traditionally seen as the start of the summer season.

It is traditional to fly the flag of the United States at half staff from dawn until noon. Many people visit cemeteries and memorials, particularly to honor those who have died in military service. Many volunteers place an American flag on each grave in national cemeteries.

Memorial Day has become less of an occasion of remembrance. Many people choose to hold picnics, sports events and family gatherings on this weekend. This day is traditionally seen as the start of the summer season for cultural events.
