

Gender-Inclusive Housing Specialty Living Agreement Form

Name _____ SID# _____

Hall/Room _____ Semester _____

Carefully read the appropriate section(s) below. You will be held accountable for the agreement that you are making. Failure to honor the obligations listed below may necessitate your moving to a different room and/or building.

Gender-Inclusive Housing Agreement

I understand and accept the following:

- Gender-inclusive housing allows for students living in the Suites@201 to form room selection groups and/or select room spaces without regard to biological sex. This policy helps create an environment that acknowledges and appreciates a diverse student body, and encourages an inclusive housing environment, while giving students more options in finding roommates who are truly compatible.
- Vacancies in a suite will be filled with students who have selected the gender-inclusive housing option on their contract acceptance form. No student will be placed in this living option unless they have indicated a preference for it.
- UW-Stevens Point Residential Living strongly discourages romantically involved couples of any sex from living together. However, we respect and honor the privacy of our students and will not require students to disclose the reason for their roommate requests.

I have read and agree to honor the above marked section(s). I understand that failure to abide by these policies may require me to move to another room and/or building. These policies and others can be found in the Residential Living handbook and/or housing and dining services contract.
