Course Description and Objective: This class teaches quantitative management science techniques to solve business problems such as facility layout, process planning, work measurement, inventory control, quality control, and includes techniques such as linear programming and statistical process control. (See description in the UWSP Catalog,) The objective of this course is to study the methods used by operations and production managers to make decisions in a company's pursuit of its strategic goals and objectives. Mathematical and spreadsheet tools will be reviewed and or developed as needed.

SBE Mission Statement: The UWSP School of Business & Economics educates and inspires students and prepares graduates for success in positions of leadership and responsibility. We serve the students, businesses, economy and people of the greater Central Wisconsin region. Our students achieve an understanding of regional opportunities that exist within the global economy.

Evidence of our graduates' level of preparation will be found in their ability to:

- Analyze and solve business and economics problems
- Understand the opportunities and consequences associated with globalization
- Appreciate the importance of behaving professionally and ethically
- Communicate effectively

Texts: Operations Management 12th ed. by Heizer & Render (2017)

Attendance Policy: You will be responsible for anything that goes on in class.

Work turned in late: Late work may not be accepted. If accepted, late work will lose 25% per calendar day.

Missing Exams: There will be no make-up exams. Students who have missed one of the midterm exams with a medical or university approved excuse, **and** who have notified me in advance will receive a statistically estimated score based on their other three exam scores. For students who have missed more than one of the midterms, a zero will be used as the missing grade in the estimation of each missing exam. If you miss the final exam, you will receive a grade of zero for that exam.

ADA Statement: If you feel you may need an accommodation or special services for this class, please see me or call the service at 346-3365.

Academic Misconduct: Any student caught cheating or assisting another student to cheat or allowing another student to cheat may be removed from the class and given a failing grade. **The minimum penalty for cheating is a reduction in points of 200% of the value of the assignment.** Academic Misconduct is defined as violating provisions of Chapter UWSP 14, Rules of the Board of Regents of the University of Wisconsin System, Wisconsin Administrative Code. (<https://www.uwsp.edu/dos/Documents/UWS%2014-1.pdf>)

Grading: Grading will start with a traditional 90, 80, 70 scale. Grades may be curved from there at the discretion of the professor. If curved, they generally place roughly the top 25% of the students with a A or A- and roughly 75% of students with a A, A-, B+, B or B-. I will use whichever system gives students the higher grade.

Exams: As the semester progresses, exams will be added to the schedule. This will be discussed on the first day.
